40. Which health habit is always practiced after visiting the latrine or toilet?

SECTION B

41. a) What is photosynthesis?

b) Identify two requirements for photosynthesis to take place.

i)

ii)

c) Why doesn't photosynthesis take place at night?

42. a) Give the meaning of the following terms as used in science

i) First aid

ii) Accident

b) Identify two reasons for giving first aid to casualties.

i) _____

ii) _____

43. Write the habitats of the following animals

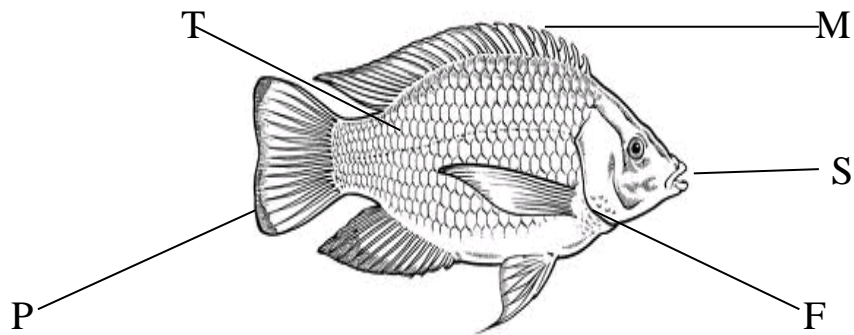

a) fish _____

b) dog _____

c) rabbit _____

d) bird _____

44. Use the diagram of a common animal below to answer questions that follow

a) Name the parts labeled

S _____

T _____

b) State the function of part F.

c) Apart from the above animal, identify any other one example of aquatic animals

45a) Mention any two deficiency diseases.

i) _____

ii) _____

b) Write any one signs of poor feeding in children.

c) Identify any one way people in your family get food.

46. a) Name any two sources of water.

i) _____ ii) _____

b) Identify one way water gets contaminated in open sources.

c) State one way of making water safe for drinking.

47. Match the part of the flower to its correct function

Part

Function

Stigma

produces pollen grains

ovary

attracts pollinators

anthers

receives pollen grains

petals

holds the ovules

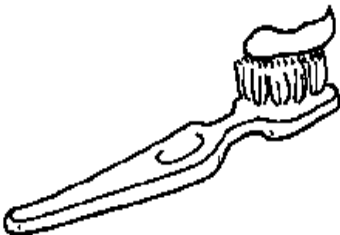

stigma _____

ovary _____

anthers _____

petals _____

48. The diagrams below show items used to keep our bodies clean. Use them to answer the questions that follow

A

B

a) Name the part of the body cared for using item A.

b) Write one hygienic activity carried out using item B.

c) What is oral hygiene?

d) Identify the activity done to promote oral hygiene.

49. a) Name any one domestic animal which does not provide meat to people

b) State two ways in which domestic animals can be harmful to people.

i) _____

ii) _____

c) Give one way of caring for domestic animals.

50. Name the second layer of soil profile.

b) Why is the first layer suitable for plant growth?

c) Mention two other uses of soil to people apart from growing crops.

i) _____

ii) _____

51. a) Mention two breeds of rabbits.

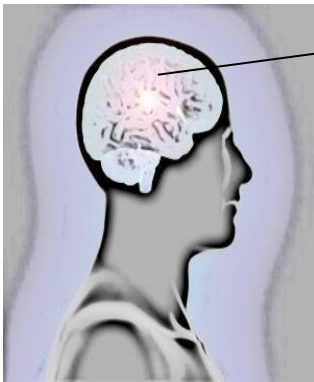

i) _____

ii) _____

b) Name any one disease that affects rabbits.

c) Mention one way of controlling rabbit diseases.

52. The diagrams below are of body organs. Use them to answer the questions that follow

A

B

a) Name the body organ marked

B _____

A _____

b) How is organ B useful in the body?

c) Mention one way of caring for internal body organs.

53. In the space below, draw the given types of teeth.

canine	incisor

b) Identify any one disease and disorder of teeth.

i) Disease _____

ii) Disorder _____

54. Give two examples of pests that attack crops in the garden.

i) _____

ii) _____

b) Mention two ways of controlling pests in the garden.

i) _____

ii) _____

55. Apart from extended family, name any other type of family in your area.

b) Write down two members of an extended family.

i) _____

ii) _____

c) State one role of children in a family
