SECTION B

Read the passage below carefully and answer in full sentences the questions that follow.

In 2015, my father advised me to start an income generating project. He told me that the income from the project would help me to buy my necessities like clothes, shoes and many others. He also did not stop at giving me advice but gave me some capital of one hundred thousand shillings.

When I got the capital, I first kept it aside. I then decided not to use this money to build a shelter. I built the shelter by myself using local materials. I got the money and bought four kids. I fed them using local feeds. By the end of the year, they had grown and produced other kids. I sold the kids and earned three hundred thousand shillings. I used some of the money to buy a pair of shoes and a belt. I opened an account with Centenary Bank and started saving my money there. This has strengthened my saving culture.

Whenever I earn some money, I spend it so sparingly that I leave some to deposit in my account. With my savings, I am planning to expand my project. The expansion of the project will force me to get some employees to help me.
