

END OF CYCLE ASSESSMENT 2024 ANALYSIS FROM THE UNEB SAMPLE PAPERS

All assessment items shall be in **Scenario form** for both theory and practical papers.

However, items will be more complex requiring learners' high level of integration of knowledge as they will come from **elements of Construct**.

An element of Construct refers to the group of topics which have related content.

NOTE: The items will be more or less Compulsory in most if not all subjects.

MATHEMATICS

Elements of construct

1. Numbers
 2. Patterns and Algebra
 3. Data collection and probability
 4. Geometry and Measurement.
- a) We shall have **only one** paper with **Two** sections **A** and **B**.
 - b) Section **A** will have **Two** compulsory Items from the first two elements of construct.
 - c) Section **B** will have **Two** parts. One part will have **Two** Items from element of construct three (**3**) while part two will have **Two** Items from element of construct four (**4**)
 - d) A learner(s) will take one Item from each part.

PHYSICS

- a) We shall have **Two** papers from **Five** elements of Construct.
 - b) Paper one which is theory will have **Five** compulsory Items from all constructs.
 - c) Paper two which is practical will have **Two** items, **Mechanics** and **Light**. One item will be done.
 - d) There is no Item about **Electricity**.
 - e) In paper **Two**, learners will manipulate the apparatus.
