.....
40. Write down the type of venation shown by the diagram below.

SECTION B

41. How do soil pollutants lead to soil infertility?

.....

b) State **any two** examples of water pollutants.

i).....

ii).....

c) Which activity in the environment can reduce these pollutants?

.....

42.a) Apart from grafting, name **any on** other artificial methods of propagation.

.....

b) Give **any two** advantages of artificial method of vegetative propagation

i).....

ii).....

c) Apart from using suckers, how else can pineapple plant be propagated?

.....

43.a) Give **any two** farming practices a farmer does after harvesting crops.

i).....

ii).....

b) State **any two** activities a farmer does before growing the seeds in a garden.

i).....

ii).....

44.a) What is meant by the term brooding in poultry breeding?

.....

.....

b) State **any one** type of brooding.

.....

c) What advantage has hen brooding over using a brooder?

.....

d) Why do most poultry keepers prefer using brooders?

.....

45.a) Apart from food, give **any other two** products that can be got by processing wetland – natural materials..

i).....

ii).....

b) Mention **two** natural materials processed to get the products named in (a) above.

i).....

ii).....

a) What did the child see at the bottom of the saucepan after 5 minutes?

.....

b) What had happened to the ice?

.....

c) State the type of change which took place?

.....

d) Why is the firewood spaced in that way?

.....

47. Which part of the skeletal system protects:-

a) the heart and the lungs?

.....

b) the brain?

.....

c) the spinal cord?

.....

d) the reproductive organs?

.....

48.a) Name **three** things required by the leaves for the process of photosynthesis to take place.

i).....

ii).....

iii).....

b) Give **the importance** of osmosis to flowering plants.

.....

49. Match the items of **list A** to those in **list B**.

List A

List B

Natural change

Germination

Physical change

Drought

Biological change

Condensation

.....

.....

.....

.....

50. The diagram below is of a movable joint. Use it to answer questions.

a) Name the parts labeled:

- i) **A**
- ii) **D**

b) Give the function of the part labeled:

- i) **C**
- ii) **B**.....

51.a)Mention **any two** types of pulleys.

- i)
- ii)

b) When using a pulley, state **any two** forces which retards work.

- i).....
- ii)

52.a) A School Health Committee organized an assembly to check children's Health at school.

What name is given to such an assembly?

.....

b) Identify **any two** activities carried out in that assembly.

i)

ii)

e) Which element of **P.H.C** is promoted by such an assembly in schools?

.....

53. The diagram below shows how blood vessels are connected in the body tissues. Use it to answer questions about it.

a) Name the blood vessels marked:

i) **V**

ii) **N**

b) State the function the blood vessels marked **M**.

.....

c) Apart from dropping carbondioxide, what other activity connected to blood circulation occurs in the lungs?

.....

54.a)What causes marasmus in children?

.....

b) State **any three** indicators of marasmus in children.

i)

ii)

iii)

55.a)Give one effect of anti – social behavior.

.....

b) Give **any three** examples of anti – social practices in the community.

i)

ii)

iii)
