CANDIDATE'S NAME:.....

SCHOOL'S NAME:.....

CANDIDATE'S CLASS:.....

1. Read the passage and answer questions that follow in full sentences.

HOLIDAY TIME

The schools' calendar has three holidays in each year. The longest of all being in December. This would last close to two months. In this long holiday, pupils relax from academic work. Some parents plan to take their children out of the country for vacation, those who don't go for vacation, they organise for them remedial lessons at home which take them less time.

Others help in house work while others, who are irresponsible stay at home watching television and playing all day.

But these days, all these have changed, schools are no longer having routine holidays. Parents find it hard to take their families for vacation, and all this has been brought about by Covid-19 that has thrown the whole world in panic.

Schools have been closed. Most children no longer remember what they learnt at school. Schools are also confused, they don't know when all this will end. They have decided to start online classes with hope that children will use this as an opportune time to keep alert.

This online programme is good because brings a teacher in your sitting room.

The disadvantage is that, this program does not provide room for questions in case you have not understood. But you can reserve your questions and call a teacher for assistance.

QUESTIONS.

1. What do pupils do during holidays?

2. Why are schools no longer having routine holidays?

3. How many school holidays does the calendar have in a year?

4. Why do parents find it hard to take their families for vacation?

5. What should children who have questions do?

6. Write the meaning of the word "vacation"

7. What do irresponsible children do at home?

8. How long do remedial lessons take?

9. Why are schools confused?

10. Write any two things a P.7 child should do in this lockdown period.
