

Kampala Mathematics Club

TRIAL TEST FOR PRIMARY SEVEN

1. Name one symbol of a clan.

.....

2. Give any one cause of drought.

.....

3. Mention any one way the African union is trying to promote peace among its member states.

.....

4. Give one cause of child abuse in Uganda today.

.....

5. In which one way did the coming of the Arabs contribute to the development of Africa?

.....

6. Give the difference between a veterinary officer and a veterinary doctor in terms of their role.

.....

.....

7. What was the main reason for the construction of the Tazara railway?

.....

.....

8. How are games and sports important to school children?

.....

.....

9. Why do most farmers in Uganda use simple tools in their work?

.....

10. Give any one reason why savanna vegetation covers the largest part of Uganda?

.....

.....

11. What role was played by Major Kanuti Akorimu at the time of Uganda's independence?

.....

.....

12. Mention one symbol of Uganda as a nation.

.....

.....

.....

Kampala Mathematics Club

14. How did Dr. David Livingston lead to the colonization of Africa?
.....
15. What was the main trade item from West Africa during the Trans-Atlantic Trade?
.....
16. Give one factor that made barter trade successful before the coming of the Arab traders.
.....
17. Why do temperate and Mediterranean vegetation provide softwood?
.....
18. How important is a wind sock to pilots?
.....
19. If the arrow of the wind vane points southwest, from what direction is the wind blowing?
.....
20. State one way western education promoted the demand for African independence.
.....
21. State one problem caused by the mining industry in south Africa.
.....
21. Study the map below carefully and answer questions 22-25.

Kampala Mathematics Club

22. Why is it shorter to use air transport from town Q to P?

.....
23. State one factor that has made lake R swampy.

.....
24. Give the reason why tobacco growing in region K has reduced.

.....
25. Name the feature marked with letter T.

.....
26. Why is it important for the youth to be represented in the parliament?

.....
27. State one role played by Sir Gerald portal on colonization of Uganda.

.....
28. Name the special armed unit that has been put in place to fight smuggling on Uganda borders.

.....
29. Give any one way children lead to the violation of their rights.

.....
30. How does reforestation help to reduce global warming?

.....
31. Why did Kabaka Mwanga sign the 1890 treaty with F.D Lugard?

.....
32. How do good roads promote trade?

.....
33. Give any one way the government of Uganda can discourage rural urban migration.

.....
34. Give one factor that makes Africa different from other continents of the world.

.....
35. State any one economic benefit of Fort Jesus to Kenya.

.....
36. Give any one way children can help needy people in the community they live.

Kampala Mathematics Club

37. How will righteous people be rewarded by God on judgement day

.....
38. How do Christians show love among themselves?

.....
39. Give one example of a Christian value.

.....
40. How did Abraham show his faith in God?

SECTION B

41. A) Give two similarities between Uganda and Nigeria.

i)

ii)

b) State two differences between Uganda and Nigeria.

i)

ii)

42. a) Who signed the 1900 Buganda agreement on behalf of;

i) Buganda kingdom

ii) the colonial government

b) How did the 1900 Buganda agreement affect;

i) Kabaka

ii) Hut owners

42.a) What are dominion states?

.....

.....
b) State any one factor that makes commonwealth nations similar.

.....
c) State one difference between commonwealth organization and African union.

Kampala Mathematics Club

44. Study the diagram below carefully.

a) Name the side of the mountain marked,

i) A

ii) B

b) How important is a mountain in rain formation?

.....

.....

c) Which side of the mountain would be good for crop growing?

.....

45. A) Name the system of administration where colonialists used African leaders to rule on their behalf.

.....

b) How was the above system applied.

.....

c) Why did the French use assimilation in their colonies.

.....

d) Why was African resistance towards colonial rule easily defeated.

.....

Kampala Mathematics Club

46. Study the illustration below carefully

learners

school

community

hospital

a) How does A benefit from B?

b) How does C benefit from B?

c) Why does C need D?

d) What danger is likely to happen in case D is not well stocked with drugs?

47. A) State any two reasons why the Portuguese conquered the coast of east Africa.

i).....

ii).....

b) Give two reasons why Arabs at the coast of east Africa were not happy with the arrival of the Portuguese.

i).....

ii).....

48. Match correctly.

Mungo Park

died of typhoid

Mary Henricia Kingsley

drowned at Boussa falls

John Lander

discovered lake Edward

H.M. Stanley

reported trade opportunities

i).....

ii).....

iii).....

iv).....

Kampala Mathematics Club

49.A) Name the body in Uganda that educates people on the need to uphold human rights.

.....
B) Give two ways human rights have been promoted in Uganda.

- i).....
ii).....

c) state any one way a girl child has been subjected to unfair treatment in Uganda.

.....
Study the map below carefully and answer the questions that follow.

Printable

50.A) How does Uganda benefit from country W?

.....
b) Give any one factor that favours the growing of cloves in area X.

.....
c) Why is the shaded part on the map not good for animal rearing?

.....
d) How does country W benefit from town S?

51.A) What is marriage in Christianity?

.....
.....

Kampala Mathematics Club

b) State two reasons why people marry.

i).....

ii).....

c) State one law in the bible that protects marriage.

52. A) What is a sacrament?

.....

.....
b) How is the sacrament of holy communion still important to Christians?

.....
c) Apart from the holy communion, mention two other sacraments in Christianity.

i).....

ii).....

53.A) Why was baby Jesus taken to Egypt?

.....
b) Name any two gifts that were given to baby Jesus by the three wise men.

i).....

ii).....

c) From which direction did the three wise men come?

54.A) Give two reasons why Christians and Muslims need to relate with each other today.

i).....

ii).....

b) Give two ways Christians and Muslims have promoted development of Uganda.

i).....

ii).....

55.A) State two similar beliefs between Muslims and Christians.

i).....

ii).....

b) State two different beliefs between Muslims and Christians.

i).....

ii).....

P.L.E. SCIENCE 2015

1. Which type of immunity do babies get from their mothers?
2. Name the blood vessel? which takes blood from the heart to the lungs.
3. Name the energy resource obtained from animal dung and urine.
4. Mention any one factor that affects the rate of evaporation.
5. State the difference in units used to measure weight and mass the diagram below shows a simple machine. Use it to answer questions 6 and 7.

6.

To which class of levers does the machine above belong?

6. Use an arrow with letter P to show the fulcrum on the diagram.
7. Give any one way in which litter is important in a poultry house.
8. Apart from the bright coloured petals, state other thing that attracts insects to flowers.
9. State any one way in which drought affects food production in the community.
10. State the difference between the feeding of a tapeworm and a hookworm.
11. Why is water obtained by distillation method not good for drinking?

Kampala Mathematics Club

12. State the sense organ for feeling in the human body.
13. Which property of magnets enables magnetic compass to work?
14. State any one way in which the spread of scabies can be prevented.
15. Why do some plants shed their leaves during dry season?
16. Mention one permanent method of birth control in males.
17. Why does a fish die soon after it has been removed from water?
18. Give the use of a drenching gun to a cattle farmer.
19. Give one reason why pregnant women are advised to feed on rich proteins.

The diagram below shows parts of a joint. Study and use it to answer questions 21 and 22.

21.

20. Name the part marked with letter X
21. Using letter W, label the part that reduces friction in the joint apart from the synovial fluid.
22. State the method of controlling soil erosion where farmers plough land and across a slope.
23. Which element of Primary Health Care helps to prevent tooth decay?
24. State the role of enzymes during food gestation.
25. Apart from cameras and microscopes, name any one other optical instrument that uses a lens.
26. Give way in which mosses are similar to mushrooms in the way they reproduce.

Kampala Mathematics Club

27. Why is tepid sponging an important First Aid to a person with high fever?
28. Why are sun birds able to suck nector from the bottom of flowers?
29. Give an example of a mollusk which is a vector to humans.
30. Name the human body system which eliminates wastes.
31. Give any one way in which a VIP latrine is different from an ordinary pit latrine.
32. Name the root crop which is attacked by the mosaic disease.
33. Give any one reason why sheep farmers carry out docking.
34. Apart from a flat iron, give one other appliance used at home that changes electric energy to heat energy.

The diagram below shows a well tuned musical instrument. The strings P,Q,R,S and T are of uniform thickness.

35. Why does string T produce sound of the highest pitch?
36. State any one way in which smoking affects the human respiratory system.
37. Give the importance of plants in a food chain.
38. Name the fungal-caused sexually transmitted disease, which spread through poor hygiene.
39. State one reason why farmers stake tomato plants.

Kampala Mathematics Club

SECTION B

41. (a) Give two examples of natural fertilizers

State two ways in which natural fertilizers are better than artificial fertilizers.

42. The diagram below shows a flowering plant.
study and use it to answer the questions that follow

(a)

To which group of flowering plants does the above plant belong?

(b) What type of root system does the plant have?

State the importance of the type of root marked Y to the plant.

In which one way is part W different from X in their reproductive function?

43. (a) Give any two conditions in which women are vulnerable.

(b) State any two ways in which family members care for vulnerable women.

(a) Name the respiratory organs which are protected by the rib cage.

(b) What happens to the rib cage during the following processes:

Breathing in?

Breathing out ?

(c) Give the use of oxygen we breathe in.

Kampala Mathematics Club

The table below shows diseases, the vectors that spread them and the disease-causing germs. Study and complete it correctly.

46. (a) Give the function of each of the following parts of a modern beehive.

The brood chamber.....

The honey chamber.....

(b) Apart from being used as food, give two other ways in which honey is useful to people.

47. (a) What kind of food is made by green plants during photosynthesis?

(b) State the one raw material used by green plants for photosynthesis.

(c) How does chlorophyll important during the process of photosynthesis?

(d) Give one reason why photosynthesis does not take place at night.

48. The diagram below shows firing bricks in a kiln.

study and use it to answer the questions that follow.

(a)

Name the source of heat energy used in firing the bricks.

(b) Give one reason why the bricks are covered with mud before firing starts.

Kampala Mathematics Club

(c) What is the importance of the grass put on top of the kiln during firing?

(d) State any one disadvantage of using the above method of firing bricks to the environment.

49. The table below shows parts of a human eye in A and that of a lens camera in B.
For each of the parts of the human eye, write the part of the lens camera from B which performs a similar function.

Irish.....

Pupil.....

Eye lid.....

Retina.....

50. (a) Which communicable disease shows signs and symptoms similar to that of tuberculosis?

Name one cattle product through which tuberculosis can spread to human beings.

When is the vaccine against tuberculosis administered in babies?

Apart from immunization, give one other way in which the spread of tuberculosis can be controlled in humans.

51. (a) Give any two ways in which alcohol is used in hospitals.

(b) State the two effects of alcoholism to an individual.

(a) Apart from the respiratory gases and body wastes, name any other two materials carried in blood.

(b) Name the component of blood which transports oxygen in the human body.

(c) Which disease causing germ attacks the white blood cells in humans?

The diagram below shows a weather instrument.

study and use it to answer the questions that follow.

Kampala Mathematics Club

(a)

Name the weather instrument shown in the diagram above.

What is the use of the instrument above at a weather station?

Give a reason why people are advised to

- (i) put the instrument in an open ground when using it
- (ii) raise the instrument 30 cm above the ground when using it

54. (a) To which class of vertebrates do toads belong?

(b) Give one way in which the breathing of a toad is different from that of a tadpole.

(c) State any two ways in which the jelly round the eggs of toads is important.

55. (a) Apart from ticks, name any one other cattle pest.

(b) State any two diseases spread by ticks to cattle

(c) Give any one way in which the tick borne diseases can be controlled.

Kampala Mathematics Club

For more past papers, please visit www.uganda.madpath.com

P.L.E SCIENCE 2019

1. Name the source of solar energy.
2. Which Vector spreads relapsing fever to people?
3. State any one use of razor blade in promoting personal hygiene.
4. Give any one example of biological change in plants.
5. Which group of cold blooded vertebrates undergoes internal fertilization?

The diagram below is of a human skull and a neck vertebra. Use it to answer questions 6 and 7.

6. Name the movable joint at K.
7. Which delicate organ is protected by S?
8. State the type of cattle kept to provide labour in a farm.
9. What type of objects do not form shadows?
10. Why does water drain faster in sand soil than clay soil?
11. How is the eardrum useful in the process of hearing?
12. Write down any one activity done to seedlings during hardening off.
13. State any one characteristic of incisor teeth which makes them suitable for their function.
14. How can the breeding of houseflies be controlled in our compounds?
15. Which deficiency disease is caused by lack of Vitamin B1 in a diet?

The diagram below shows a head of a tapeworm. Study it and answer questions 16 and 17.

Kampala Mathematics Club

16. Name the part marked A.
17. How is part B useful to the tapeworm?
18. State any one characteristic of essential drugs.
19. Give any one way in which you can re-use plastic objects at home.
20. How do carnivorous animals get energy from plant?
21. State one characteristic of non-renewable resources.
22. State any one difference in function between an artery and a vein.
23. Give any one way in which having regular physical exercises is important to the human body.
24. How is a coconut seed adapted to water dispersal?

The diagram below shows electric wires under a certain weather condition. Study it and answer questins 25 and 26

Kampala Mathematics Club

25. In which kind of weather condition do the electric wires appear as shown above?
26. Why do the electric wires appear as shown above?
27. Why is alcohol used in a maximum and minimum thermometer?
28. How does mouth to mouth breathing help a victim of near drowning?
29. State the importance of the hairs in the nose during breathing.
30. Which immunisable disease affects the liver?
31. Apart from light Sussex, name any one other exotic breed of chicken kept for meat.
32. Which rabbit disease causes wounds in their ears?
33. Give any one way in which the electric current produced by a dynamo can be increased.
34. How does an object less dense than water behave in water?
35. State any one condition which is favourable for bacteria breed.
36. Name any one root tuber crop which is propagated by use of seeds.
37. Which group of invertebrates has segmented bodies and jointed legs?
38. How does the PIASCY programme help school children to avoid being infected with HIV/AIDS?
39. Give any one reason why farmers sort seeds before planting them.
40. Apart from the skin, give any one other human body organ that excretes excess water.

SECTION B

41. (a) Name the component of air used for; (i) respiration.....
(ii) putting out fire.....

(b) State any two dangers of wind to people

42. The diagram below shows the life circle of a vector. Study it and answer the questions that follow.

Kampala Mathematics Club

(a) Name the vector whose life cycle is shown above.

(b) Name the stage marked B.

(c) What does stage A feed on?

(d) How does the vector whose life cycle above spread disease?

43. (a) Write down any two causes of nose bleeding. (b) Why is a person whose nose is bleeding advised to, (i) lean back his/her head?

(ii) pinch the soft part of his/her nose?

44. In the table below, part A shows terms used to describe sound and part B has a meaning of the terms.

Part A	Part B
Volume	Number of vibrations per second
Pitch	Reflected sound
Frequency	Loudness or softness of sound
Echo	Highness or lowness of sound

Use the meanings in part B of the table to match the terms below

(a) Volume..... (b)

Pitch.....

(c) Frequency

(d) Echo

45. (a) Write down any two reasons why toads are classified as amphibians (b) In which two ways are fish different from amphibians?

46. (a) Write down any two pieces of information which are collected in a health survey. (b) Give two reasons why carrying out a health survey in an area is important.

47. The diagram below is of a developing foetus in a mother's womb. Study it and answer the questions that follow.

Kampala Mathematics Club

(a) Name the substance marked N (b) Give two uses of the part marked K to the foetus (c) On the diagram above, label placenta.

48. (a) Give one example of an exotic breed of goats kept In Uganda. (b) Name one example of fibre got from goats.

(c) State any two reasons why some farmers would prefer rearing goats to cattle.

49. (a) State any two ways in which weeds can lower the yield of crops.

(b) State any one way in which the growth of weeds can be controlled in a garden.

(c) Apart from controlling weeds, give any one other way farmers can care for their crops.

50. The diagram below shows a simple machine. Study it and answer the questions that follow.

(a) To which type of simple machines does the machine above belong?

(b) State any one use of the simple machine above.

(c) Name any one force that makes work difficult when using the above machine.

(d) Give one other example of a machine that belongs to the above type of simple machine.

51. (a) Which digestive juice is produced in the mouth?

(b) Write down any two things that happen to food in the mouth.

(c) Which digestive disorder is prevented by including roughage in our diet?

52. (a) State any two factors that should be considered when starting a tree growing project. (b) Give any two benefits of a woodlot to a community

53. (a) What substance in plants helps them make their own food?

(b) How is feeding in ferns different from that of mushrooms?

Kampala Mathematics Club

(c) Apart from ferns, give any two other plants which are similar to mushrooms in their way of reproduction.

54. The diagram below shows how light is split into seven colours using a glass prism. Study it and answer the questions that follow.

a. Name the colours X and Z

b. Why do the light rays bend at different angles as they leave the glass prism?

c. Why do we usually see the above band of seven colours in the sky when it is raining?

55. (a) State any two signs of poor sanitation in a school.

(b) Give any two diseases than can break out due to poor sanitation in a school.

Kampala Mathematics Club
KAMPALA JUNIOR ACADEMY
HOLIDAY WORK SET FOUR TERM I 2020
PRIMARY SEVEN
MATHEMATICS

Time allowed: 2 hours 30 minutes

Name: _____

School: _____

Read the following instructions carefully:

1. The paper has **two** sections: **A** and **B**
2. Section **A** has 20 short questions (40 marks)
3. Section **B** has 12 questions (60 marks)
4. Answer **ALL** questions. All answers to both Sections A and B must be written in the spaces provided.
5. All answers must be written using a blue or black ball point pen or ink. Diagrams should be drawn in pencil.
6. Unnecessary alteration of work may lead to loss of marks.
7. Any handwriting that cannot be easily read may lead to loss of marks.
8. Do **not** fill anything in the boxes indicated for Examiner's use only.

Kampala Mathematics Club
SECTION A: (40 MARKS)

1. Divide: $20 \div 4 =$

2. What number has been expanded to give $(4 \times 10^3) + (5 \times 10^1) + (3 \times 10^0)$

3. Calculate the area of the figure below.

4. Given that $K = \{1, 2, 3, 4, 5\}$ and $M = \{2, 4, 6, 8\}$
Find $n(K \cup M)$

5. Convert $\frac{1}{8}$ as a decimal number.

6. Find the integer represented by letter P.

Kampala Mathematics Club

7. A television set costs ...150. How much is this in Uganda shillings if ...1 is equivalent to UG Sh. 3500?

8. Study the following letter cards.

E N V I R O N M E N T

What is the probability of choosing letter **E** ?

9. Find the next number in the sequence below.

1, 3, 6, 10, 15, ____

10. Round off 2791 to the nearest hundreds.

11. Using a ruler, a pencil and a pair of compasses only. Construct an angle of 30^0 in the space below.

Kampala Mathematics Club

12. Increase shs. 3000 in the ratio 6:5

13. Add: $3\ 4_{\text{five}}$

$$\begin{array}{r} +1\ 2_{\text{five}} \\ \hline \end{array}$$

14. The area of a rectangular piece of garden is 36m^2 . Find its width if the length is 9m.

15. Simplify: $5b - 2x - b + 7x$

16. Use distributive property to work out
 $(75 \times 6) + (25 \times 6)$

17. If  represent 12 balls, how many balls are represented by  ?

Kampala Mathematics Club

18. Kayiza's car uses 42000ml of petrol every week. Express its weekly consumption in litres.
19. Find the value of p in the figure below.

20. The first half of the football match ended at 5:25p.m. after being played for 45 minutes. At what time did the match start?

SECTION B: (60 Marks)

- 21 (a) Use a number line to work out (2 marks)

$$4 \times -2 = \underline{\hspace{2cm}}$$

- (b) Work out: $2 - 5 = \underline{\hspace{2cm}}$ Mod 7 (1 mark)

Kampala Mathematics Club

(c) Today is Monday. What day of the week will it be after 30 days? (2 marks)

22a) What is the place value of the digit 5 in the number 450028? (1 mark)

(b) Write 6708 in standard form. (2 marks)

(c) Write in figures: Twenty four thousand fourteen. (1 mark)

23a) Find the side of a right angled triangle marked letter x. (2 marks)

(b) What special name is given to a regular quadrilateral? (1 mark)

Kampala Mathematics Club

- (c) Mark lines of folding symmetry of the figure below. (1 mark)

- 24a) Matovu drove from town **A** to town **B** a distance of 80km. He left town **A** at 8:00 a.m. and reached town **B** at 10:00 a.m. Find the average speed from town **A** to **B**. (3 marks)

- (b) Express $2\frac{3}{4}$ hours to minutes. (2 marks)

25. In a class of 58 pupils, 30 pupils eat Matoke (M), x pupils eat Posho (P) only, 4 pupils eat both matoke and posho. 2 pupils eat neither Matoke nor Posho.

- (a) Represent the information on the venn diagram below. (2 marks)

- (b) How many pupils eat posho? (3 marks)

Kampala Mathematics Club

- 26a) A factory produces 1000 litres of juice everyday. If the juice is packed in bottles of 0.25 litres, how many bottles will be packed? (2 marks)
- (b) Work out:
$$\begin{array}{r} 0.25 \times 3.6 \\ \hline 0.45 \end{array}$$
 (3 marks)
27. Kizza went to the market and bought the following:
2kg of meat at sh. 8000 per kg.
500gm of posho at sh. 2000 per kg.
2 loaves of bread at sh. 4000 per loaf.
2 $\frac{1}{2}$ kg of salt at sh. 1000 per kg.
- (a) How much did she spend altogether? (5 marks)
- (b) If she had a fifty thousand shilling note, what was her change? (1 mark)
28. Solve:
(a) $9x + 14 = 32$ (2 marks)

Kampala Mathematics Club

(b) $2t \times 3 = 12$ (2 marks)

(c) If $a = 5$, $b = 2$ and $c = 1$ Find the value of $2a + 4b - 6c$ (2 marks)

29a) Find the volume of a cube with a side of 8cm. (1 mark)

(b) The volume of a cuboid below is 120cm^3 . (i) Find the value of h . (2 marks)

(ii) Find its total surface area. (2 marks)

30a) Calculate the simple interest on sh. 80000 kept for 2 years at a rate of 20% per year. (2 marks)

Kampala Mathematics Club

(b) Work out: $\frac{3}{4} - \frac{1}{2} \times \frac{1}{4}$ (2 marks)

31a) Using a ruler, a pencil and a pair of compasses only, construct a right angled triangle ABC, AB = 8cm, BC = 6cm and angle B = 90° . (4 marks)

Printable

(b) Measure line AC. (1 mark)

Kampala Mathematics Club

32. The graph below shows malaria patients who reported at a certain hospital in the first half of the year. Study it and answer the questions that follow.

- (a) Complete the table *(2 marks)*
- | Months of the year | Jan. | Feb. | March | April | May | June |
|--------------------|------|------|-------|-------|-----|------|
| Number of patients | | | | | | |
- (b) Find the average number of patients who reported at the hospital. *(2 marks)*
- (c) If each patient was paying sh. 20000 for consultation, how much money did the hospital collect in June? *(2 marks)*

SPECIAL PRELIMINARY EXAMINATIONS

Kampala Mathematics Club

P.7 SCIENCE

Time allowed: 2 Hours 15 minutes

Candidate's Name:

Index No.

--	--	--	--	--	--	--	--	--

Stream

SECTION A

1. Name the germ that causes sleeping sickness.

3. What name is given to eggs of lice?

5. Name one pest that destroys roots of root tuber crops.

6. What state of matter is ghee at room temperature?

7. Give one reason why cockroaches are a threat to crawling babies.

9. Write one activity that can be done by a farmer to improve the quality of crop yields.

10. State one block in a food path.

11. Why is immunisation of children important in Uganda?

12. Give one reason why people installing electricity should wear rubber gloves in their hands.

13. Why should young boys abstain from sex?

Kampala Mathematics Club

14. What type of farming should a farmer use in order to harvest both crops and wood? _____

The diagram below is of a charcoal stove. Use it to answer questions that follow.

15. How important is the hole N in the charcoal stove?
-
16. Why do objects weigh less in water than in air?
-
17. State the importance of boiling water for drinking.
-
18. State one way of preventing malaria without using chemicals.
-
19. Apart from an ostrich, name one other example of flightless birds.
-
20. Suggest one way of maintaining proper functioning of the body organs.
-
21. Distinguish between a fuse and a switch according to their function.
-

The diagram below is of a foot of a bird. Use it to answer questions 22 and 23.

22. Name structure marked with letter Y.
-
23. Suggest one example of birds with such a foot.
-
24. State one natural cause of environmental degradation.
-
25. Identify the smallest bone in the body.

Kampala Mathematics Club

26. To which group of simple machines does an axe belong?

27. Give one way in which antelopes protect themselves from predators.

28. Why is it not advisable to store cooked food in a room where domestic animals live? _____
29. Identify one domestic animal man can use to protect himself.

30. How is a duck billed platypus similar to a duck?

31. Compare echo and an image in light.

32. Apart from humus and living organisms, name other component of soil.

33. What kind of energy is possessed by books on the table in your class?

34. Suggest one factor one should consider when choosing a site for an apiary.

35. Define volume of sound.

36. Which part in the mammalian eye does the same work as the film in the camera?

Below is a diagram of a bean seed. Use it to answer questions that follow.

37. Name the part marked X.

38. Explain how important is part Y to the seed during germination.

39. State the part of the flower that holds the anther head.

Kampala Mathematics Club

40. Where in the human digestive system does digestion of food end from?

SECTION B

41. (a) What are monotremes?

(b) Identify any two examples of monotremes.

i) _____

ii) _____

(c) How are monotremes different from elephants?

42. *The diagram below shows a human joint. Use it to answer questions that follow.*

(a) Name parts marked Y and M.

i) Y: _____

ii) M: _____

(b) Explain how part X is important at the joint.

(c) What type of joint is shown in the diagram above?

43. (a) Give one reason why a magnet cannot attract a piece of wood.

(b) Identify any three practices that can lead to the destruction of a magnet.

i) _____

ii) _____

iii) _____

44. (a) What is a vector?

Kampala Mathematics Club

- (b) Which vector spreads malaria germs to human beings?
- (c) Suggest two ways how people can control the spread of malaria germs.
- i) _____
- ii) _____
45. (a) What do you understand by the term friction?
- _____
- (b) How can friction be an advantage to a bicycle rider?
- _____
- (c) Suggest two ways how one can reduce friction in moving bodies.
- i) _____
- ii) _____
46. Match items in list A with those in list B correctly.
- | A | B |
|-------|----------------|
| Skin | valves |
| Lungs | brain |
| Skull | carbon dioxide |
| Heart | sweat |
- i) Skin: _____
- ii) Lungs: _____
- iii) Skull: _____
- iv) Heart: _____

47. An experiment below was done by a P.5 class. Use it to answer the questions that follow.

- (a) Which method of finding volume is illustrated above?

Kampala Mathematics Club

(b) If the stone has a density of 2g/cc, find its mass.

48. (a) Identify any two common sex deviations in the community.

i) _____

ii) _____

(b) List down two sexually transmitted diseases caused by a virus.

i) _____

ii) _____

49. (a) Write down any two types of cattle reared in Uganda.

i) _____

ii) _____

(b) State two requirements for starting a livestock farm.

i) _____

ii) _____

Kampala Mathematics Club

50. The diagram below shows refraction of light through a transparent glass block. Use it to answer questions that follow.

(a) Name parts labelled P and Y.

- i) P: _____
ii) Y: _____

(b) Write down any two ways how refraction can be dangerous to people.

- i) _____
ii) _____

51. (a) Give immunisation sites for the following vaccines.

- (i) DPT _____
(ii) BCG _____

(b) At what age is measles vaccine immunised to children?

(c) Name one vaccine which is administered to babies at birth.

52. (a) What are energy resources?

(b) Identify the major source of heat energy in the environment.

(c) Name any two common non-renewable resources in the environment.

- i) _____
ii) _____

53. Write short notice on the following words.

Kampala Mathematics Club

(a) Silting: _____

(b) Ovulation: _____

(c) Pasteurisation: _____

(d) Perspiration: _____

54. (a) Explain why a first aid box should be painted white.

(b) Differentiate a first aid box from a first aid kit.

(c) Describe two factors which may lead to fainting.

i) _____

ii) _____

55. (a) How do we call a person who is recovering from sickness?

(b) Identify three causes of sicknesses in our community.

i) _____

ii) _____

iii) _____

Kampala Mathematics Club

49. You should remember to slice the bread before packing it. (Re-write the sentence beginning: Don't.....)
-
50. There is very little fuel in the School Van. (Re-write the sentence using.....hardly.....)
-

SECTION B

51. Read the passage below and answer the questions that follow in full sentences.

Examinations are very easy to pass. One can easily pass these examinations by working very hard.

Teachers always advise candidates to revise their books. The hardworking candidates follow the teacher's advice while the lazy ones continue relaxing.

When you carry out enough revision, you face the examination with a lot of confidence.

It was this year in January, when the P.L.E results for 2018 were released. Many candidates became anxious because they wanted to know their results. Therefore they sent sms to 6600 at a cost of five hundred shillings.

While releasing the results, the Minister of Education and Sports Honourable Janet Kataaha Museveni was glad to announce that most of the candidates had passed the examination and that there was improvement in general performance.

The general performance indicated that English was the best done subject of the four. However, she noted that Social Studies was the worst done subject. The Minister congratulated the candidates on their success. She also thanked those teachers and headteachers who had conducted the examinations without any malpractices.

Urban schools had performed relatively better than rural schools. The Minister cautioned teachers in rural areas against absenteeism, late coming and high rate of drunkardness. She promised that the Ministry of Education would come up with a new policy very soon to regulate teachers' attendance.

Finally, the Minister asked parents to take up responsibilities for their children's education. The Minister further said, "When children are educated, they do not only support their parents but also positively contribute to national development".

Questions:

- a) Which advice is given to candidates if they are to pass their examinations?
-
- b) When were the 2018 P.L.E results released by the Minister of Education?
-

Kampala Mathematics Club

c) What advice would you give to teachers who want to take part in examination malpractices?

d) Which body is responsible for the management and administration of P.L.E?(give the answer in full)

e) According to the passage, give one reason why the Minister was happy at the release of these P.L.E results?

f) Give one reason why UNEB could not release some of the schools' P.L.E results?

g) Give one reason why you think Kintu who scored 36 aggregates is likely to repeat P 7.

h) Give one word or group of words to mean malpractices

i) Write the given short form in full:

UNEB: _____

P.L.E: _____

52. Below is a short passage of two paragraphs. Re-write and punctuate it correctly in the space provided.

during the two days of our Mock Examinations the rest of the classes don't come to school Teacher tom our class teacher ensures that everything is ready and in its right place this year these examinations are to be done in the month of august beginning with mathematics.

We pray that we continue to enjoy good health in order to perform well. The headmaster is happy with us. What a lovely headteacher he is

Kampala Mathematics Club

53(a) Below are mid-term results for Nakiyingi Deborah Joy, a pupil at Green Hill Primary School. Study it carefully and in full sentences answer the questions that follow.

Class: P.I

Stream: Green

Class teacher: Phoebe Amongin

Subject	Target	Mid-Term Results	Grade	Comment
English	95	98	D1	Excellent
Mathematics	95	92	D2	Very Good Work
Literacy I	95	94	D2	Very Good Work
Literacy II	95	92	D2	Very Good Work
Total	380	372	7	
Kiswahil		80	C3	Good Work

Class Teacher's Comment: This is such a promising performance. She is encouraged to aim higher to achieve the target.

Questions:

1. Whose mid-term results are indicated in the table above?

2 Why did the class teacher encourage the pupil to aim higher?

3 According to the table, who is the class teacher of P I Green?

4 Which subject did the pupil perform better than her target?

5 What does 7 in the grade column represent in the table?

Kampala Mathematics Club

53.(b)

The table below indicates the enrolment in Public Universities for the Year 2017/2018. Study it carefully and in full sentences answer the questions that follow.

No	University	Enrolment		
		Male	Female	Total
1	Makerere University	18,866	15,256	34,122
2	Mbarara University	743	463	1,179
3	Makerere University Business School	1,983	2,723	4,706
4	Busitema University	2,257	968	3,225
5	Kabale University	1,433	1,176	2,819
6	Kumi University	290	86	376
7	Lira University	737	637	1,374

Source of Information: Ministry of Education and Sports 2017/2018.

1. What is the information about?

2. Which University has the smallest enrolment?

3. Which University has more female students than male students?

4. Name the University with the smallest number of female students.

5. From what source was the above information obtained?

Kampala Mathematics Club

54. Read the Poem below and in full sentences answer the questions that follow.

I

Kampala Entebbe Express way,
The wonder road,
The shortest connection to,
Entebbe International Airport,
The gateway to the world and beyond.

II

The Entebbe Express way,
The creative work of Chinese,
The epitome of development,
The expression of modernity,
The center of tourism attraction.

III

The Entebbe Express way,
The home of Nambigirwa Bridge,
One of the longest in East Africa,
Seated on a green canopy,
Stretching for almost a kilometer and a half.

IV

The Entebbe Express way,
A source of pride to many,
A source of inspiration to us,
A milestone in development,
A responsibility to all.

Nakiyingi Deborah Joy

Questions:

- What is being talked about in the poem?

Kampala Mathematics Club

2. How useful is this road to those travelling to Entebbe Airport?

3. Which people will always be remembered in the history of the construction of Entebbe Express way?

4. According to the second stanza, how will Uganda economically benefit from Entebbe Express way?

5. Which bridge is located on the Entebbe Express way?

6. Give one danger of over speeding on this express way.

7. How many stanzas make up this poem?

8. Suggest one thing you can do to ensure that this road is not spoiled.

9. Give one reason why the Nambigirwa Bridge is one of the longest in East Africa?

10. Who is the writer of this poem?

Kampala Mathematics Club

55. Imagine you are a pupil of Chadwick Namate Primary School, Entebbe. You have learnt that there is an outbreak of Ebola in Entebbe Municipality.

Using your school address, write a letter to your parents informing them of this outbreak. Advise them not to come on the Visitation Day because of this outbreak. Suggest to them another day and request them to come along with the balances of School Fees and other missing requirements.

-

50. Early to bed and early to rise, (**Complete the saying correctly.**)
-

SECTION B: (60 MARKS)

51. Read the passage and answer the sentences that follow in full sentences.

GOING FOR SCHOOL HOLIDAYS

There are three terms in a year. At the end of every term, school children break up for holidays. School holidays are the happiest and funniest moments in school life. School holidays give pupils time to relax, plan and visit their relatives and friends in urban or rural areas.

Of the three holidays, the third term's holiday is the longest. This is because it lasts for two months or sixty days. The first term's and second term's **holiday** last for about three to four weeks.

During holidays, children get chance to help their parents on the farm with garden work or with house chores at home. Holidays also provide children with ample time to learn new skills such as knitting, weaving, modeling, baking and looking after domestic animals. They also enable children to prepare for the next term.

Sometimes four places of their interest such as game parks, zoos, museums, historical sites, mountains and forests. In addition, children go camping with their peers. On some occasions religious leaders organize retreats for the youth during holidays. This gives the youth a platform to meet people from all walks of life and share ideas and **acquire** knowledge.

Dear children, it is good to plan for holidays. Never waste your holidays gossiping or playing cards and watching televisions.

Questions:

1. What happens at the end of every term?

2. How does the writer describe school holidays?

3. Which holiday is the longest?

4. How do good pupils spend their holidays?

Kampala Mathematics Club

5. Give another word with the same meaning as, acquire?

6. How are religious leaders important to school children during their holidays?

7. Mention **any two** skills a holiday maker is likely to acquire in holidays.

(i) _____

(ii) _____

8. How productive can a holiday maker spend a holiday?

9. Why are school holidays important to learners?

10. Write the **title** for the above passage.

52. The sentences below are not in their proper order, re-arrange them so that you can make a good composition about "**School holidays**".

1. However, resting does not simply mean being idle or not working at all.

2. They may also include visiting relatives and friends during this period.

3. Since this would be very difficult to fulfil when we are at school.

4. It only means doing activities that help your body and mind to relax.

5. That is why we should always have holidays at the end of every term.

6. Why do you think so?

7. Most pupils believe that this period is indeed good for us.

8. Such activities include camping, swimming and touring important places.

9. I think so because holidays enable us to rest.

10. Every school child needs a holiday.

Kampala Mathematics Club

53. **Below is a conversation about how Kiiza and Tonny spend their holidays.**
Complete it by filling in the missing parts.

Kiiza: Good afternoon, Tonny

1. Tonny: _____

Kiiza: How do you always spend your holidays?

2. Tonny: _____

Kiiza: Helping your parents in the shop? Is it a retail or wholesale shop?

3. Tonny: _____

Kiiza: What device do you use to measure sugar in your shop?

4. Tonny: _____

Kiiza: A weighing scale! How much does a kilo of sugar cost?

5. Tonny: _____

Kiiza: Three thousand four hundred shillings only! That is expensive.

6. Tonny: What about you? How do you spend your holidays?

Kiiza: _____

Tonny: Visiting relatives and touring important places! Do you usually travel alone?

7. Kiiza: _____

Tonny: With your parents! How do you travel to Kasese?

8. Kiiza: _____

Kampala Mathematics Club

- Tonny: By train. For how long do you stay there?
9. Kiiza: _____
- Tonny: A fortnight! Goodbye, Kiiza.
10. Kiiza: _____

54. You are a pupil of Akokoro Primary school, P.O.Box 123, Lira. The headmaster has sent you home because you have broken a school desk. Using your school address, write a letter to your headmaster and beg him to allow you return to school. Tell him what exactly happened and promise not to do it again.

SECTION B

51. Read the passage carefully and answer the questions in full sentences

FEAR EVERYWHERE

In all Newspapers that are on sale, there is fear for our lives. The young and the old, all in fear.

The greatest fear is sighted from the Top Security officers in both Police and the Army. Whenever there is death of a security officer, like it, there has to be arrest of at least four or eight officers connected to that death.

Please, why kill each other like birds. God created us in his own image; with a purpose of loving each other and live in peace.

The death of Afande Kawesa is an example of fear everywhere. Very many officers have been arrested in connection to his death. At first they were innocent, but now, they are guilty.

This is a lesson to all over us; Mankind should be respected. It is bad to misuse power. It is indeed improper to misuse the office being given to manage. Whenever put in a certain office, be in position to serve and be a servant.

a. How did God create us?

.....

b. What is the passage about?

.....

c. Which officer's death created fear in Top officers?

.....

d. According to the passage, what should be respected?

.....

e. Where is great fear sighted?

.....

f. What should one do if put in a certain office?

.....

g. What has happened to many officers?

.....

h. Why did man create us?

.....

i. Give the opposite of Peace.

.....

Kampala Mathematics Club

j. When is fear sighted in the officers?

52. RE-arrange the sentences to form a meaningful story.

1. By regarding us as your real children.
2. That is when laughing and smiling ended at home.

In numbers 31 to 50, re-write the sentences as instructed in brackets.

31. The driver stopped the car. The lights turned red.

(Re-write as one sentence usingas soon as.....)

32. Debaters ought not to use abusive language.

(Re-write the sentence usingshouldn't.....)

33. My mother will not pay school fees if she does not get money.

(Re-write the sentence beginning: Unless.....)

Kampala Mathematics Club

34. Is there any water in the tank?

(Re-write the sentences using: Yes,)

35. Joan said, "I will write to my uncle tomorrow."

(Re-write the sentence beginning: Joan said that.....)

36. The exam was easy but the class failed it.

(Re-write the sentence beginning: Despite.....)

37. Michael is a tall boy. He is dark-skinned and handsome.

(Join as one sentence without using 'and/who')

38. Muwanga will propose the motion. Nicole will oppose the motion.

(Join as one sentence using whereas.....)

39. Kato is a very intelligent boy.

(Re-write the sentence beginning: What.....)

Kampala Mathematics Club

40. Mathematics is a very easy subject. English is a very easy subject.

(Join as one sentence usingboth.....)

41. Of the two, beef and mutton, the diner's preference was mutton.

(Re-write the sentence beginning: The diner preferred.....)

42. That is the old man. His wife died in a motor accident.

(Join the sentences usingwhose.....)

43. Our driver is a very kind man. He will always wait for us.

(Join the sentences using:suchthat.....)

44. Uganda is a poor country. Kenya is also a poor country.

(Join the sentences using:as well as.....)

45. Basula did not understand the teacher. Even Mulungi did not understand the teacher. (Re-write the sentence using: Neither.....)

Kampala Mathematics Club

46. If you pass the examinations, I will take you abroad.

(Re-write the sentence usingwould.....)

47. Drivers should not speed, should they?

(Re-write the sentence and endshouldn't they?)

48. We wrote the work and then collected the books for marking.

(Re-write the sentence beginning: Having.....)

49. David said don't break the cup.

(Re-write and punctuate the sentence correctly)

50. What is the price of an apple?

(Re-write the sentence ending:cost?)

Kampala Mathematics Club

SECTION B: 50 MARKS

(Questions 51 to 55 carry 10 marks each)

51. Read the passage below and answer in full sentences the questions that follow.

My sisters and I are pupils at one of the big city schools. Mother drops my sisters and I at school and later picks us every day.

One evening, I was going back home from school with my mother and my two sisters when we saw an accident near Hotel Africana. A speeding taxi which was heading for Jinja had knocked down a motorcyclist who was joining the main road at the roundabout.

The motorcyclist had his legs broken and the passengers in the taxi sustained serious injuries. The motorcycle was damaged beyond repair and the taxi windscreen was completely smashed. My mother parked the car and within a short time, there was a big crowd. The driver of the taxi had taken off and the conductor ran to Jinja Road Police Station to report the matter.

In less than 10 minutes, traffic police officers had arrived and an ambulance was called. The casualties were taken to the hospital for treatment. The people around tried very much to assist by removing the wreckage from the middle of the road. Later, a breakdown towed the taxi to Kampala Road Police Station.

I really feared because I had never witnessed such an accident. People should try to be very careful when using the road because this accident could have been avoided if the motorcyclist had been more careful.

Kampala Mathematics Club

1. What is the passage about?
2. Where was the writer going when he saw an accident?
3. Where was the taxi going?
4. Who was driving the car in which the writer was travelling?
5. Who reported the accident according to the passage?
6. To which police station was the matter reported?
7. How long did the police take to reach the scene?
8. What do you think caused this accident?
9. Who collects taxi fare?
10. Suggest a suitable title to this passage.

Kampala Mathematics Club

52. The sentences below are in a wrong order. Re-arrange them to make a meaningful story about debating.

- a) They become very happy and make some noise.
- b) When the winners are declared
- c) The secretary reads out the number of points for each side.
- d) The side with the more points is then declared winners by the secretary.
- e) But the better side will always win.
- f) These arguments need very good opposers and proposers.
- g) It is interesting because it is full of fun during hot arguments.
- h) This is one of the most interesting activities in school.
- i) The school usually organizes debating.
- j) Hillside School is a great place to be.

Kampala Mathematics Club

53. Study the price list below and answer in full sentences the questions that follow.

(A survey by New Vision Reporters)

NTENJERU MARKET - MUKONO DISTRICT			
ITEM	LUMU'S STALL	OTILE'S STALL	KALEVU'S STALL
1 kg of onions	Shs 1,500.	Shs 1,000.	Shs 1,500.
A basket of tomatoes	Shs 8,000.	Shs 6,000.	Shs 8,000.
A heap of egg plants	Shs 1000.	Shs 400.	Shs 600.
Sweet potatoes (a tin)	Shs 1,500.	Shs 10,000.	Shs 10,000.
A bunch of sweet bananas	Shs 3,500.	Shs 3,000.	Shs 3,500.
Millet flour (per kilogram)	Shs 2,500.	Shs 2,000.	Shs 2,500.

a) In which district is Ntenjeru market?

.....

.....

.....

b) How many stalls does the table show?

.....

.....

.....

c) According to the table, what is the cheapest item?

.....

.....

.....

Kampala Mathematics Club

d) How much is a kilo of onions at Kalevu's stall?

e) How many items does the table show?

f) Whose stall is the most expensive?

g) How much is a heap of egg plants at Lumu's stall?

h) What does Otile sell most cheaply?

i) If Joel wanted to buy sweet potatoes at Kalevu's stall, how much money would two tins cost him?

j) Who gathered this information?

Kampala Mathematics Club

54. Study the notice below and answer in full sentences the questions that follow. The notice appeared in the Monitor Newspaper.

NOTICE!

NOTICE!

POWER BLACKOUT

The general public is hereby informed that there will be a power black-out in most parts of the country. The most affected areas will be Kampala, Mukono and Arua. There will be no power in the above areas on Mondays, Wednesdays, Fridays, Saturdays and on Sundays from 8:00a.m to 10:00a.m.

The rest of the parts of the country will have power on and off any time. This will take 3 months due to the major repairs at the old dam in Jinja District.

UMEME MANAGEMENT

9th Feb. 2020

a. What is the notice about?

b. On which date was the notice written?

c. According to the notice, who is being informed?

STANDARD JUNIOR SCHOOL ZANZIBAR

Kampala Mathematics Club

MID TERM ONE BREAK – HOME TESTS, 2020

P7 SCIENCE (SET THREE)

Time Allowed: 2 hours 15 minutes

SECTION A	
SECTION B	
TOTAL	

NAME: _____

SECTION A: 40 MARKS

1. Give any one component of soil.

2. State the health precaution practiced by people after visiting latrines.

3. Mention any one form of energy.

4. State one way how rain water can be made safe for drinking.

5. Why do electricians put on gloves when installing electricity?

6. Give one reason for filtering water before using it for washing.

7. Why is BCG vaccine administered at birth?

8. Which type of blood vessels contains valves?

9. Why do some trees shed their leaves in dry seasons?

10. Name any one physical process involved in rain formation.

11. State any one activity done to control mosquitoes at home.

12. Identify the virus that causes AIDS.

13. How are the roots marked X useful to the plant.

14. Mention anyone raw material for photosynthesis.

15. Why is soya beans grouped under legumes?

16. Which part of air is used by plants to manufacture proteins?

17. Which body organ is mainly affected by excessive consumption of alcohol?

18. State any one way how crop farmers can control pests in the garden without using chemicals.

Use the part of the plant drawn below to answer questions 19

19. Name the biological change that takes place in the part of the plant shown above.

20. State one way of reducing the spread of intestinal diseases.

21. Why are fleas regarded as vectors?

22. Mention any one role of children in a family.

23. What method can be used to find the volume of irregular shaped objects?

24. Name the state of matter in which heat travels by convection.

25. State any one way in which some plants benefit from growing near other plants.

26. Why should clean containers be used in preparation of ORS?

27. Write one use of food in human body.

28. In which way is bottle feeding of a disadvantage to the baby?

Below is a diagram of a human tooth. Use it to answer question 29 and 30.

29. How is the tooth above able to tear food?

30. Apart from the above tooth, name any other type of teeth.

31. Why should a goat shed be kept clean?

32. Which sanitary equipment is used for proper drying of washed utensils at home?

33. How are road signs useful to road users?

34. State one way in which crop farmers control caterpillars in their gardens.

35. Name the form of energy produced by a plucked guitar string.

36. Give one factor considered when sorting clothes for cleaning.

37. Which property of air is shown below?

38. How important is a stretcher to a first aider?

39. What is the use of a tongue in the process of food digestion?

40. Suggest one way of controlling soil erosion on hilly areas.

SECTION B: 60 MARKS

41. a) Name any two non-metallic garden tools used by farmers.

i)

ii)

b) In which two ways can a farmer maintain the efficiency of the garden tools?

i)

ii)

42. a) What is the purpose of giving first aid to a casualty?

b) Mention any two items found in the first aid box.

i) ii)

c) Identify any one quality of a good first aider.

43. The diagram below is one of the insect vectors; use it to answer the questions that follow.

a) Identify the vector above.

b) Name the parts marked with letters M and N

M N

c) How is part marked with letter M important to the insect vector above?

.....
44. a) State any two causes of cannibalism in fowls.

i)

ii)

b) How best can a poultry farmer make use of chicken droppings?

.....
c) Name any one disease which attack fowls

.....
45. a) Suggest any two measures that can be observed to prevent accidents caused by foreign bodies.

i)

ii)

b) Give any two places where drowning can take place.

i) ii)

46. a) State the meaning of the term dehydration.

.....
b) Write down any one cause of dehydration.

.....
c) Mention one component of ORS.

.....
d) Give a reason why dehydrated people are given ORS.

.....
47. **The diagram below shows a method used to find the volume of irregular shaped object. Study it carefully and answer the questions that follow.**

Irregular object

M

a) State the method of finding the volume of irregular object in the above diagram.

.....
b) Name the container marked with letter "M" in the above diagram.

.....
c) Calculate the volume of the irregular objects in the above diagram

(2 marks)

48. a) Name any one game that children play using wind

Kampala Mathematics Club

b) In which two ways is strong wind dangerous in our community?

i)

ii)

c) How is wind different from air?

49. a) Otukol grows maize on a large scale. Identify any factor he considered before starting maize farming.

b) Mention one common pest to his maize fruit in the garden.

c) What advise would you give to Otukol to control the pest in (b) above?

d) Why would you encourage Otukol to introduce bee keeping in his maize farm?

50. **Match the disease in A to the body organ that they affect in B below.**

Diseases (A)

Trachoma

Tuberculosis

Peptic ulcers

Meningitis

Body organ (B)

Lungs

Eyes

Brain

Stomach

Trachoma:

Tuberculosis:

Peptic ulcers:

Meningitis:

51. a) Which type of immunity is got;

i) after suffering and recovering from a disease without treatment?

.....

b) Of what importance is immunity to the body?

.....

c) Why is polio vaccine administered to babies?

.....

52. a) Explain the meaning of the term harvesting honey?

.....

b) Give two equipment that a bee keeper needs when harvesting honey from a hive.

i) ii)

c) Write one advantage of modern bee hive over a traditional bee hive.

Kampala Mathematics Club

53. ***The table below shows different food staffs eaten in different four families. Study it and answer the questions that follow.***

Family	Chicken	Maize	Cabbage	Fruit
A	x	✓	✓	x
B	✓	✓	✓	✓
C	✓	✓	✓	x
D	x	✓	x	✓

Included in the diet Not included in the diet.

a) Which food staff is eaten by all families?

c) Identify the families that feeds its members on proteins.

d) Which type of proteins is included in the table?

d) Which family is likely to have cases of constipation?

54. a) Briefly explain the following terms.

i) Solute.

ii) Solvent.....

b) Give one example of a solute.

c) Why is water called a universal solvent?

55. a) Decomposition is one of the method in soil formation. Point out one organism that help in decomposition of matter.

b) Which component of soil is formed in (a) above?

c) How is the component of soil mentioned in (b) above important to crops?

d) Why would you encourage farmers to maintain plant growth on their gardens?

END

Kampala Mathematics Club

NAME: TMT No.

SECTION A

1. Answer all questions in this section.
2. Questions 1 to 20 carry two marks each.

1.	Add: $24 + 31$	2.	Find the G.C.F of 8 and 12.
3.	Describe the unshaded region on the venn diagram below. 	4.	Simplify: $8 - 6$
5.	Alex drove his car covering a distance of 60 Km in $1\frac{1}{2}$ hours. What was his speed in K.p.h?	6.	Use a protractor to draw an angle of 70° .
7.	Given that $a = -2$ and $b = 2a$. find the value of $a^2 + b$.	8.	What afternoon time is shown on the clock face below? 

Kampala Mathematics Club

9.	Write 249.34 in words.(without using the word 'point')	10.	What is 25% of 4000kg?
11.	Draw tallies to represent 19.	12.	Find the size of angle marked with letter m. 
13.	Express 6 square metres as square centimetres.	14.	A box contains 6 blue balls, 3 yellow balls and 7 red balls. What is the probability of picking a ball at random which is not blue?
15.	Which number is written in expanded form to give; $(3 \times 10^1) + (4 \times 10^0) + (4 \times 10^{-2}) + (5 \times 10^{-3})$?	16.	Solve for k: $25 - 5k = -5$.

Kampala Mathematics Club

17.	<p>A trader withdrew bank notes numbered consecutively from WT000400 to WT000499. If each note had a value of shs. 5,000, how much money did the trader withdraw?</p>	18.	<p>Use a dial to work out: $4 - 5 = \dots$ (finite 7)</p>
19.	<p>Find the next fraction in the sequence below: $\frac{1}{2}, \frac{2}{3}, \frac{3}{5}, \frac{4}{7}, \dots\dots$</p>	20.	<p>Abraham had a wire $12\frac{1}{3}$m long. If he cut it into small pieces of a third of a metre long, how many pieces did he get?</p>

SECTION B (60 Marks)

- 1. Answer all the questions in this section.**
2. Marks for each question are indicated in the brackets.

21.a	<p>Work out: $232_{\text{five}} + 44_{\text{five}}$ (2 marks)</p>	b)	<p>Express 202_{four} to ternary base system. (2 marks)</p>
22.	<p>Given that $n(\Sigma) = 60$, $n(A)' = 25$ and $n(B - A) = x + 15$.</p>	a)	<p>Use the information above to complete the venn diagram below. (2 marks)</p>

$n(\Sigma) = 60$

Approved: 0777 023 444

SECTION B

51) **Read the passage below carefully and in full sentences, answer the questions that follow.**

Mr. Majambere David is a teacher at Iganga Preparatory School. He started a bakery as his side business. Majembere bakery is called Divine Bakery. It is the best bakery in the district. The success of this bakery is attributed to its staff of hardworking bakers led by Mubiru Petero, the head baker.

They serve their customers with kindness and humility. This has helped them earn deals of baking cakes for different ceremonies and supplying bread and doughnuts to different institutions.

Mr. Majambere's bakery is also organized and well managed. This is done through holding staff meetings every Saturday. These meetings are planned by Mubiru Petero and chaired by Mr. Majambere David. The meetings are held to discuss the progress and future plans of the bakery. In retail shops, people prefer buying products from Divine Bakery. These people claim Divine Bakery's products are delicious and of good quality. Their products include bread, cakes,

Kampala Mathematics Club

cookies and doughnuts. They can be found in all shops and supermarkets in Iganga and beyond.

Questions.

- a) What is Majambere's occupation?

- b) According to the passage, what is the name of Majambere's business?

- c) Who is the head baker at Divine Bakery?

- d) When are meetings held at this bakery?

- e) Who chairs these meetings?

- f) Why are the meetings held?

- g) Why do many people prefer buying products from Divine Bakery?

- h) Name one product made by Divine Bakery.

- i) Write one word with the same meaning as with kindness as used in the story.

- j) Suggest a suitable title for the story above.

52) Study the information below and answer in full sentences, the questions that follow.

MWENDO FASHION HOUSE
LOCATED AT Juakali Mall, Mwendaji Streets
P.O. Box 1431, Nairobi.

We make all kinds of suits,, dresses, shirts, trousers, school uniforms,
African wear Kanzus and young people's clothes.
We also sell and hire out imported
Wedding gowns and jewellery.

For details, contact Elly Mwangi, our Manager
on 0712120412 or James Mwadui our
Sales executive on 07131120412
Email: mwendofh@yahoo.com

Questions

Kampala Mathematics Club

a) Which company is advertising?

b) Along which street is Mwendo Fashion House located?

c) In which mall do we find the business above?

d) Name one imported item found at Mwendo Fashion House.

e) According to the advert, who is the Manager?

f) In which city is Juakali Mall located?

g) Write one word to mean the same as young people.

h) What is the email address of Mwendo Fashion House?

i) Which items do they have for hire?

j) Write e-mail in full.

53) The sentences below are in a wrong order. Re-arrange them in a correct order to make a good composition about “Road Accidents in Uganda.”

a) What then shall we do to reduce road accidents?

b) Some people are blaming the careless driver.

c) Road accidents in Uganda are increasing.

d) Unfortunately, blaming this or that will not solve this problem.

e) More and more people are dying in road accidents.

f) First of all, The Highway Code should be taught in all school.

g) Others are blaming the traffic police.

h) Who is to blame for the deaths on our roads?

i) Lastly all careless drivers should be jailed.

j) I suggest the following measures.

- 54) **Read the letter below and answer, in full sentences, the questions that follow.**

Masaka Junior Scghool,
P.O. Box 741,
Masaka.

10th March, 2020.

The O.C Traffic Police,
Masaka Police Station,
P.O.Box 998,
Masaka.

Dear sir,

Re: ROAD HUMPS

I am writing to request your office to work with the municipal authorities to construct road humps near our school gate.

We urgently need the humps due to the increasing number of accidents at this spot.

I believe that the humps will force the motorists and motorcyclists to slow down. This will help to reduce the number of accidents.

Yours faithfully,

JANE NANSUBUGA
(Head teacher)

Questions

a) Who addressed this letter?

b) When was this letter written?

c) To whom was this letter addressed?

d) Why are road humps needed at that spot?

Kampala Mathematics Club

e) Who should the OC Traffic Police work with to establish the humps?

f) How do you think the humps will reduce the number of accidents?

g) Where are the road humps needed?

h) Who is Jane Nansubuga?

i) Where is Masaka Junior School found?

j) Write O.C in full.

55) **Complete the story below by suing the words given in a box.**

Rearing animals is a _____ business in this country.

Animals bring not only _____ but also milk and meat which improve our diet.

It is advisable for every home to keep a cow to provide them with

_____. Besides animals, birds like

_____ and ducks are also good to rear. These birds give

us _____ and meat. Most farmers try to rear different

animals like cattle, goats, sheep and _____. However,

many of them do not succeed. Some animals die due to lack of adequate

_____ about caring for animals.

To benefit from animal rearing, farmers should _____

their animals early enough when they are sick. Farmers should always

_____ or dip their animals to kill external parasites like

_____ and fleas.

ticks, profitable, money, hens, pigs knowledge, treat, milk, spray, eggs
