

HILLSIDE PRIMARY SCHOOL PRE PLE EXAMINATIONS

2024

MATHEMATICS (SET TWO)

Time Allowed: 2 Hours 30 Minutes

Index No.

--	--	--	--	--	--	--	--	--

Candidate's Name.....

Candidate's Signature.....

Stream.....

Read the following instructions carefully:

1. The paper has two sections: A and B.
Section A has 20 questions and Section B
has 12 questions
2. Answer all questions. All answers to both
sections A and B must be written in the
spaces provided.
3. All working must be done using a blue or
black ball-point pen or fountain pen. Any work
written in pencil other than graphs and diagrams
will not be marked
4. No calculators are allowed in the examination
room.
5. Unnecessary changes in work may lead to
loss of marks. Any handwriting that cannot easily be
read may lead to loss of marks.
6. Do not fill anything in boxes
indicated: "For Examiners' Use Only"
and those inside the paper.

FOR EXAMINERS' USE ONLY

TOTAL		

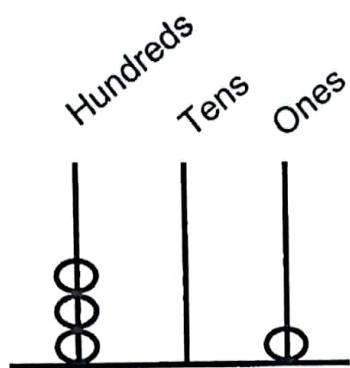

SECTION A: 40 MARKS

Answer all questions in this section

Questions 1 to 20 carry 2 marks each

1. Work out: $5052 \div 3$

2. Write the base ten number shown on the abacus below in base six.

3. Given that $M = \{1, 2, 3, 4\}$ and $K = \{1, 6, 5, 4, 9\}$, find $n(M \cup K)$.

4. Work out: $\frac{3}{5} + \frac{2}{3}$

5. Gabbie bought three scores of cups for staff tea at sh. 1800 each cup. How much did she spend?
6. Choir training started on a Tuesday and took 28 days. Find the day of the week on which the training ended.
7. Convert 900 millilitres to litres.
8. find the next number in the sequence:
2, 13, 28, 47, 70, ____
9. Express 12: 40pm in a twenty-four hour clock system.

10. Find the value of $3^2 + 5^2 \times 8^0$

11. Mukama made a circular Kraal of 120 fixed poles at an interval of 3 metres apart. Find the circumference of Mukama's Kraal?

12. Find the supplement of $(3y - 70)^0$

13. Change 0.8333..... to a vulgar fraction.

14. Given that $b = 3$, $c = b^2$ and $r = c - b$.

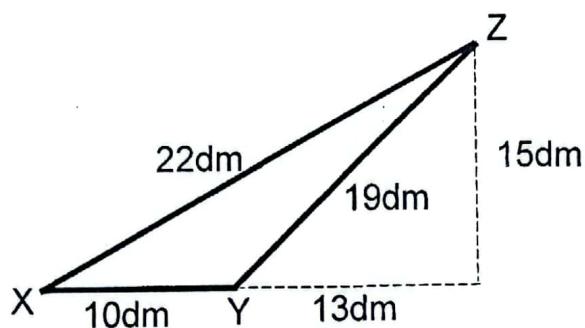

Find the value of $\frac{r^2(c - b^2)}{3}$

15. Express 15m/sec in kilometres per hour.

16. In the recent concluded census in Uganda, two districts G and F had 3,201,342 and 1, 875, 009 people respectively. Find the range of the population in the two districts.

17. A tank was $\frac{3}{4}$ full of petrol. When 400 litres were drawn, it remained $\frac{1}{2}$ full. Find the number of litres the tank holds when it is completely full.

18. Work out the area of triangle XYZ below.

19. A compound can be cleaned by 4 girls in only 30 minutes. How many girls working at the same rate can clean the same compound in 20 minutes?
20. Using a ruler, a sharp pencil and a pair of compasses only construct an angle of 105°

SECTION B: 60 MARKS

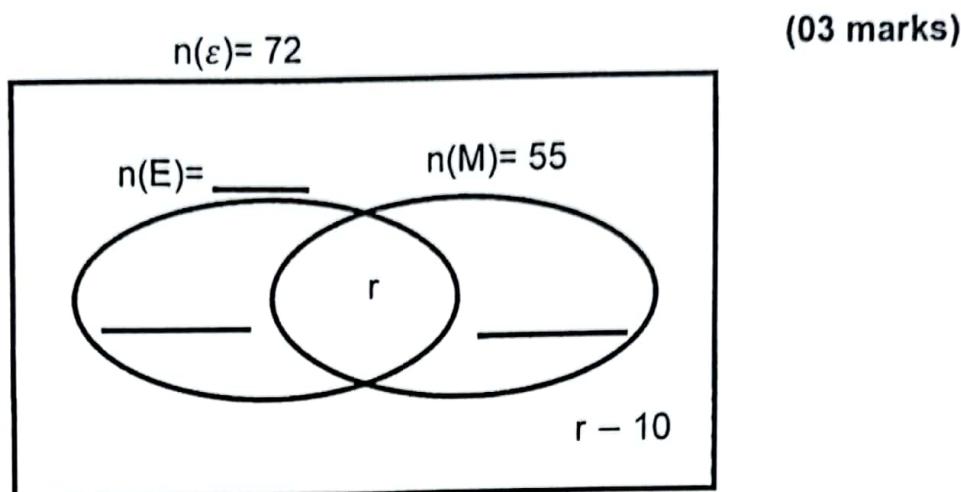

Answer all questions in this section

Marks for each question are indicated in the brackets

21. a) Write 27 in binary system. (02 marks)
- b) How many times is the value of digit 9 more than the value of digit 6 in the number 895, 643? (03 marks)

22. A school has a staff of 72 teachers, 55 of them teach Mathematics (M), $(r - 17)$ teach English (E) but not Mathematics, r teach both mathematics and English while $(r - 10)$ teach neither of the two.

a) Use the information above to complete the Venn diagram below.

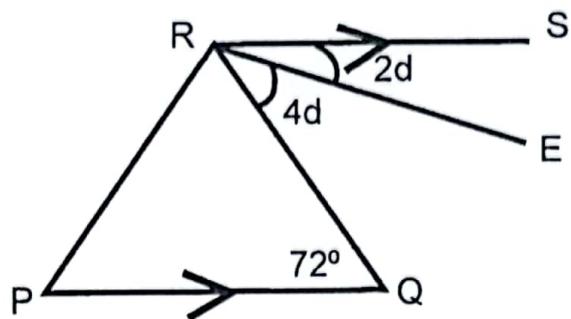

b) Find the value of r .

(02 marks)

23a) The interior angle of a regular polygon is 36° more than its exterior angle. How many sides does the polygon have?

(03 marks)

b)

Calculate the size of angle SRE in above figure.

(02 marks)

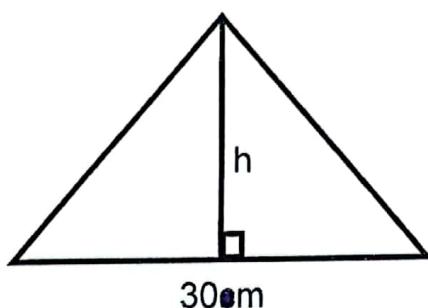

24. The distance between city A and city B is 144km.

a) Ramiti travelled from city A to city B at an average speed of 48km/hr. How long did it take him to reach city B? (02 marks)

b) If Ekong travelled from city B to city A at a speed of 36km/hr. how longer did it take Ekong to cover the above distance than Ramiti?

(02 marks)

25. a) The area of the triangular field represented below is 150m^2 .

Find the value of h .

(02 marks)

b) Convert 45m^2 to square centimetres.

(03 marks)

26. a) Express $\frac{13}{6}$ as a recurring decimal. **(02 marks)**

b) Work out:
$$\frac{0.64 \times 0.75}{1.6 \times 0.12}$$
 (03 marks)

27. The rates at which a bank buys and sells foreign currencies are given in the table below. Study it and use it to answer the questions that follow.

Currencies	Buying rate	Selling rate
US dollars 1 (\$)	Ug sh. 3600	Ug sh. 3700
Pound Sterling (£)	Ug sh. 4550	Ug sh. 4650
Kenya shilling 1 (Ksh.)	Ug sh. 35	Ug sh. 36

a) Daviana has £ 350, how much money in Uganda shillings will she get from the bank? **(02 marks)**

b) If Kiptegei has Ksh. 22,200, how many dollars will he get from the Bank? (03 marks)

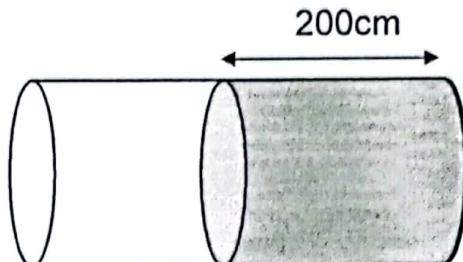

28. a) Using a ruler, a pencil and a pair of compasses only, construct a parallelogram PQRS in which $QR = 7\text{cm}$. $PQ = 5.5\text{cm}$ and angle $PQR = 45^\circ$ (04 marks)

c) Measure the length of the diagonal QS (01 mark)

29. a) A father is 20 years older than his son. In 8 years time the ratio of their ages will be 2:1 respectively. How old is each of them now?
(03 marks)

b)A trader bought 20 plates at sh.2000 each. Some plates got lost, he sold the rest of the plates at sh.3000 each making a profit of 20%.
Find the number of plates that got lost. **(03 marks)**

30. The diagram below show a cylindrical tank containing 770 litres of milk.

- a) Find the radius of the tank. (take $\pi = \frac{22}{7}$) (03 marks)
- b) If the height of the remaining milk to fill the tank is 140cm, find the capacity of the tank when full. (02 marks)

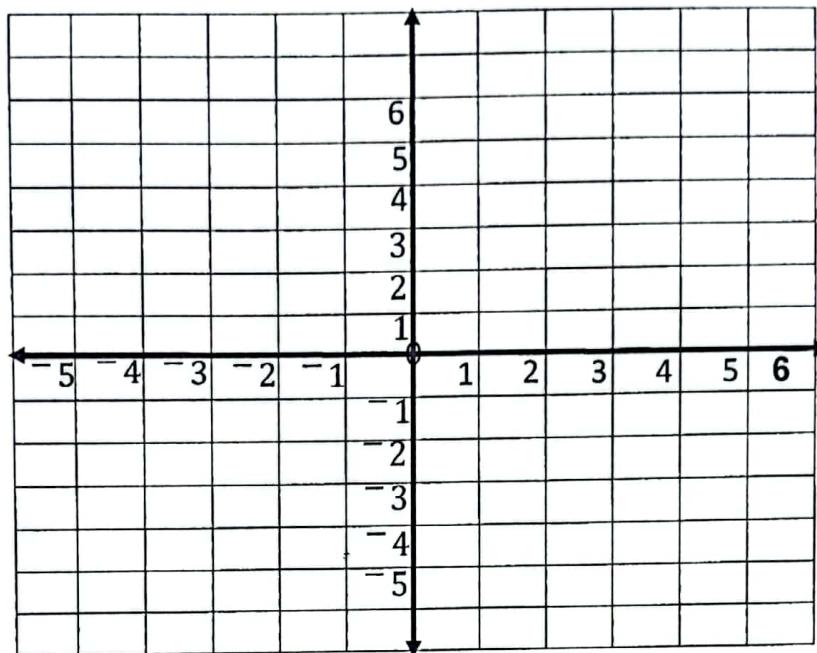

31.a) While marking a quiz of 30 questions, two marks are awarded for every correct answer and a mark is deducted for every wrong answer. If Banaga gets 45 marks. Calculate the number of correct answers he will have got? **(02 marks)**

b) Solve the inequality below and state the solution set

$$12 < 3x - 6 < 24 \quad \text{**(03 marks)**}$$

32. Plot the following points on the cartesian grid below.

T(-3, -3) Z(5, -3) X(5, 3) (03 marks)

b) Locate point Y on the above grid so that when T is joined Z, Z to X, X to Y and Y to T a rectangle is formed. (01 mark)

c) Calculate the area of the rectangle formed. (01 mark)

SECTION A

1. Name the type of electricity created from accumulation of charges on an object.

.....

2. State any one importance of a stone in promoting personal hygiene.

.....

3. State the reason why gap filling is important in crop growing.

.....

4. Write down any one characteristic of underground stems.

.....

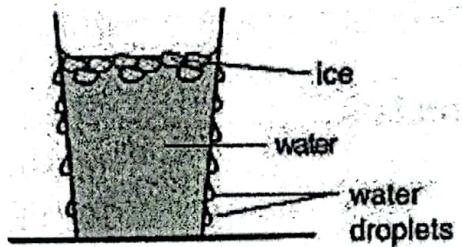

5. State any one reason why flutes and trumpets are be grouped together.

.....

6. Suggest any one way of controlling rinderpest in cattle.

.....

The diagram below show a glass of cold with ice. Use it to answer the questions 7 and 8.

7. Name the physical process that forms the water droplets on the surface of the glass as seen above.

.....

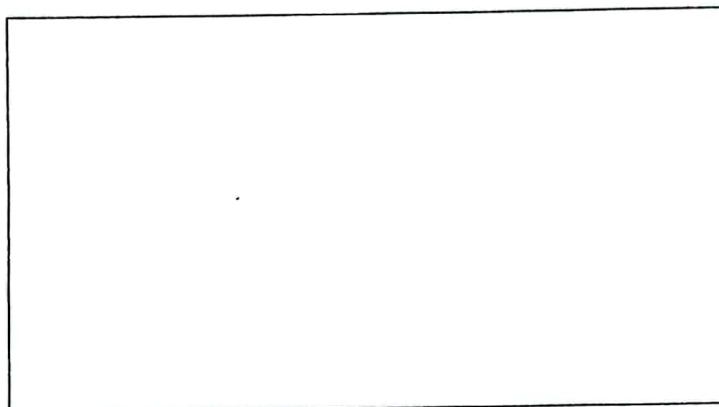

8. Identify the force that enables the water molecules to stick to the glass as shown above.

.....

9. State any one similarity between a centipede and a millipede in terms of reproduction.

.....

10. In the space provided below, draw the white blood cell and use an arrow to indicate the nucleus.

11. Give any one way of controlling floods in the environment.

.....

12. State any one reason why patients of sickle cell disease sometime experience a lot of severe pain.

.....

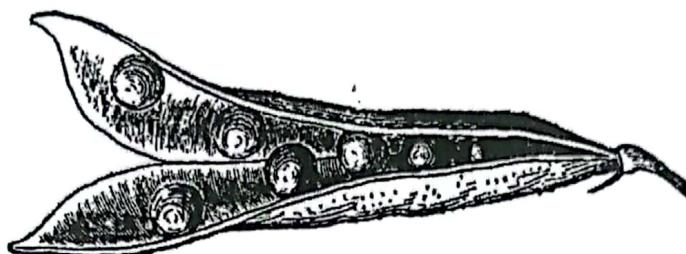

13. State any one way in which the human skeleton helps to promote good posture.

.....

14. Briefly explain the first aid for a first-degree burn.

.....

The diagram below shows a seed undergoing self-dispersal. Study it and use it to answer questions 11 and 12

15. Give any one characteristic of seeds that undergo self-dispersal.

.....

16. Mention any one plant whose seeds undergo self-dispersal.

.....

17. State the reason why wood burnt to ash cannot be recovered.

.....

18. State the reason why recycling of waste materials is important.

.....

19. Give any one way of preventing short circuits during electrical installation.

.....

20. State any one characteristic that promotes air circulation in an egg laid by a hen.

.....

21. Mention any one plant fibres used for manufacturing clothes.

.....

22. Write down any one disease in humans that spreads through sharing clothes.

.....

23. State any one danger of too much water during seed germination.

.....

24. Name the type of bees that develop from fertilized eggs laid by the queen bee.

.....

25. Give any one sign of snuffles disease in rabbits.

.....

26. Name any one example an accessory fruit.

.....

27. State any one danger of taking drugs with incorrect prescriptions.

.....

28. Give any one way of reducing friction in air and water.

.....

29. State any one other method of reproduction in bacteria besides binary fission.

.....

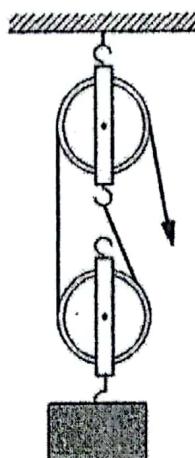

30. Cite any one structural similarity between an incisor tooth and a canine tooth of a mammal.

.....

31. State any one way in which the breeding of mosquitoes can be controlled in the community.

.....

The diagram below shows a simple machine. Study and use it to answer the questions 32 and 33

32. Under which group does the simple machine above belong?

.....

33. State any one use of the simple machine drawn above in our community.

.....

34. Identify the digestive disorder that can result from eating food hurriedly.

.....

35. State any one way in which zebra crossing is helpful in controlling traffic accidents in Uganda.

.....

36. Give any one importance of an immunization card to a child's parents at home.

.....

37. Give any one importance of colostrum to a calf.

.....

38. State any one importance of cobwebs to a spider.

.....

39. Name the type of soil erosion that creates deep tunnels on the ground.

.....

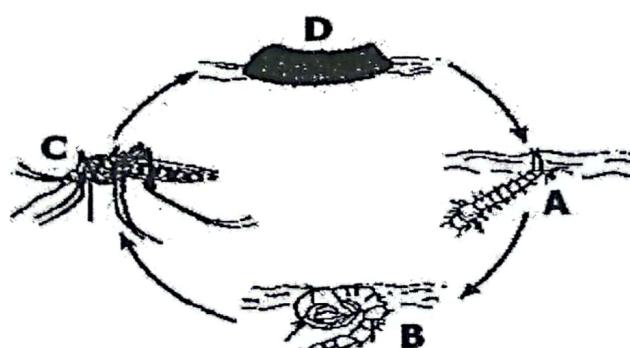

40. State any one role of the young farmers clubs in schools.

.....

SECTION B

41. The diagram below shows the life cycle of a mosquito.

Study and use it to answer questions 41.

a) Name any one habitat of the mosquito at stage marked C.

.....

b) State the method used by mosquitoes at stage A for breathing.

.....

c) Give any one difference between the eggs laid by an anopheles mosquito and those laid by an aedes mosquito.

.....

d) Write down the organ used by adult mosquitoes for feeding.

.....

42. a) State the importance of the following body organs in the human body.

i. Bone marrow.....

ii. Spleen

b) Name the vitamin deficiency that causes poor clotting of blood.

.....
c) Give any one way of promoting the proper working of body organs.

43. a) Give any one sign of a compound fracture.

.....

b) State any one reason why greenstick fractures are more common in young children.

.....

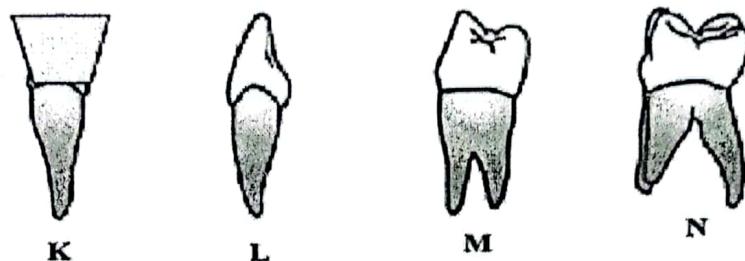

c) Explain the use of splints when giving first aid to a casualty with a fractured arm.

.....

d) Give any one way cyclists protect the skull from fractures.

.....

44. The diagram below represents different types of teeth in the mouth. Study and use it to answer questions that follow.

a) Name the tooth labelled with letter K.

.....

b) State the function of tooth labeled with letter L in the mouth.

.....

How many teeth of type labelled with letter M are found in the mouth in normal adults?

.....

c) State one adaptation of tooth labelled N to its function of grinding food.

.....

45. a) What is a straight fertilizer?

.....
.....

b) Mention any one example of a compound fertilizer.

.....

c) Give any one method used by farmers to apply fertilizers to the garden.

.....

d) Apart from using fertilizers, state any one other way farmers can increase the supply of nitrogen in the soil.

.....

46. a) Besides binary fission, state any one mode of reproduction in bacteria.

.....

b) Name the bacterium that helps in decomposition.

.....

c) Give any one danger of bacteria in the environment.

.....

d) State the difference between antibiotics and antiseptics.

.....

47. a) State the way deoxygenated blood and oxygenated blood are prevented from mixing in the heart.

.....

.....

b) State what happens to the heart muscles when blood is pumped away from the heart.

.....

c) Give any one difference between the pulmonary artery and the pulmonary vein.

.....

d) Mention any one disorder of the human heart.

48. a) State the meaning of a health parade.

.....

b) Mention any two activities done in a health parade.

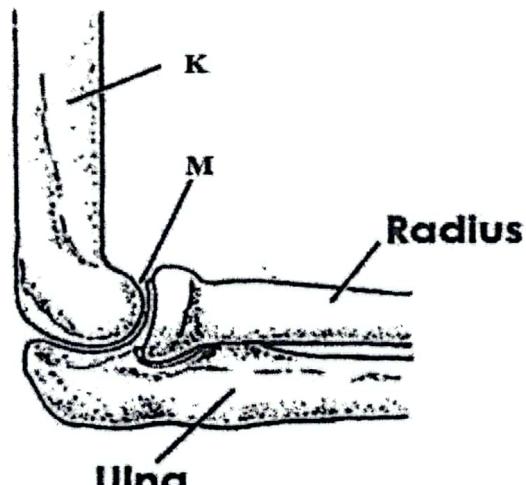

i.

ii.

c) State any one way we can care for people with special need at school.

.....

49. The diagram below shows a type of joint. Study and use it to answer questions that follow.

a) Identify the movable joint drawn in the diagram above.

.....

b) Give any one substance that helps to reduce friction at position marked M in the joint above

.....

c) Name the bone marked K.

.....

d) Mention any one injury that occurs at a joint.

.....

50.a) Mention any one place in a school or home where near drowning can take place.

.....
.....

b) Give a reason why the chest compressions on a near drowning victim during first aid are important.

.....

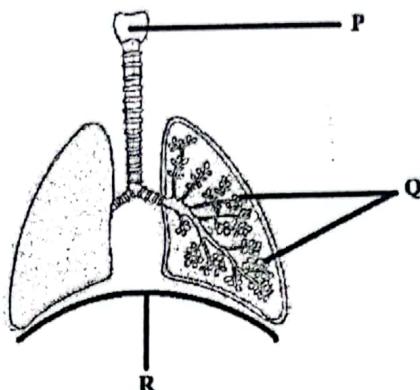

c) Mention any one way a small child can help an adult who is near drowning.

.....

d) State the use of a stretcher during first aid administration.

.....

51. The diagram below represents the human lungs. Study and use it to answer questions that follow.

a) Identify the part marked R.

.....

b) Name the important respiratory process that takes place at part marked Q.

.....

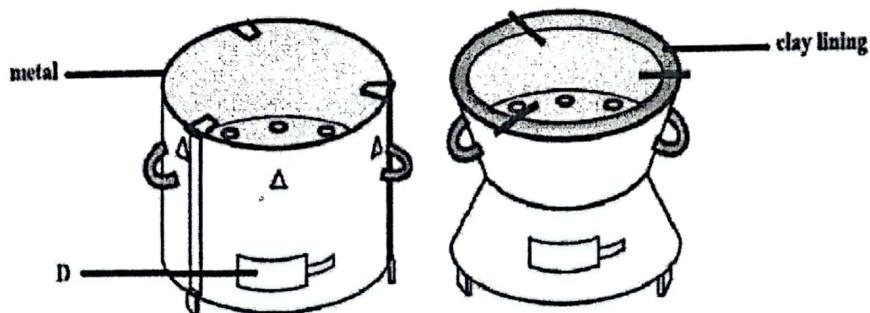

c) State the importance of part marked P.

.....

c) Mention any one poor life style that damages the lungs.

.....

52. The diagram below shows two charcoal stoves used for preparing food at home. Study and use it to answer questions that follow.

a) Apart from letting in oxygen during cooking food, give any one use of hole marked D.

.....
.....

b) State the importance of the clay lining.

.....
.....

c) Mention any two dangers of using charcoal for cooking to the environment.

i.
ii.

53. a) Mention any one source of proteins got from water bodies.

.....

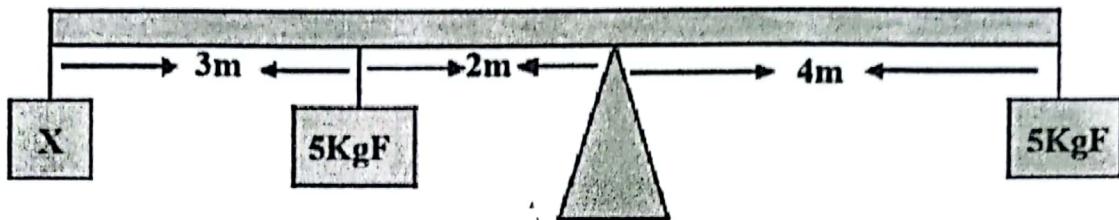

b) State any two reasons why proteins are an essential element of a balanced diet.

i.
ii.

c) Mention the deficiency disease that results from lack of a balanced diet in the body.

.....

54. The diagram below shows moments about a turning point.

Study and use it to answer the questions that follow.

a) Calculate the value of X (2 marks)

b) State the law of moments.

.....
.....

c) Give any one way machines simplify work.

.....
.....

55. Match the following diseases in A to their vaccines in B.

A	B
Tuberculosis	Hib vaccine
Pneumonia	DPT vaccine
Tetanus	PCV vaccine
Haemophilus influenza b	BCG vaccine

A	B
(a) Tuberculosis
(b) Hepatitis B
(c) Tetanus
(d) Haemophitus influenza b

Section A (50MARKS)

(Questions 1 to 50 carry one mark each)

Sub-section I

In questions 1 to 5, fill in the blank space with a suitable word or group of words.

1. Nakanya isuniversity student.
2. The ladyI travelled to Lira was very lovely.
3. One ought to respect.....parents all the time.
4. We are likely to break.....for holidays in August.
5. His friend asked me.....I had done the exercise.

In questions 6 to 15, use the correct form of the word given in the brackets to complete the sentence.

6. Matilda has just.....the clock on the wall. (hang)
7. My.....sister spent three years in South Africa.(old)
8. That is the hospital where I was..... (bear)
9. Most parents areof their children. (pride)
10. Adults should live an.....life. (example)
11. Dad bought all his office.....from Mr.Tendo.
(furniture)
12. We are looking forward to.....our teachers.(meet)
13. Of the two girls, Ritah is the (beauty)
14. Thomas is aby nationality. (Ghana)
15. The passenger looked..... at the lazy
conductress. (worry)

In questions 16 and 17, use each of the given words in sentence to show that you understand their meaning.

16. fast

.....
.....

17. first

.....
.....

In questions 18 to 20, re-write the sentence giving one word for the underlined group of words.

18. The hotelier bought new bowls, saucers and plates from the market.

.....
.....

19. Rindiriza has taught in this school for a period of ten years.

.....
.....

20. We arrived in Tororo at midnight.

.....
.....

In questions 19 to 21, write the given abbreviations in full.

21. When's.....

22. Prof

23. cc.....

In questions 24 and 25, re-arrange the given words in ABC order.

24. June, May, March, July

.....
.....

25. bill, billy, bit, bind

.....
.....

In questions 26 and 27, re-write the sentence giving a singular form for the underlined word.

26. My wife is an Indian national.

.....
.....

27. The dead bodies were put in a crematorium last night.

.....
.....

In questions 29 to 30, re-write the sentence giving the opposite of the underlined word.

28. The date he wrote on his letter was incorrect.

.....
.....

29. The outgoing chairman was rewarded abundantly.

.....
.....

30. Children lose their guilt as they grow older.

.....
.....

Sub-Section II

In each of the questions 31 to 50, rewrite the sentence as instructed in the brackets

31. Our driver is old. The conductor is old.

(Re-write as one sentence using:equally.....)

.....
.....

32. They have been working on that road for two years.

(Rewrite the sentence using:since.....)

.....
.....

33. There is little water left in the jug.

(Rewrite the sentence using:barely.....)

.....
.....

34. Veronica wrote a letter and took it to the Post Office.

(Rewrite the sentence beginning: Having.....)

.....
.....

35. Sharon writes slowly. Sharon doesn't want to make any mistakes.

(Rewrite as one sentence using:in order to.....)

.....
.....

36. If mother gets money, she will buy a radio.

(Rewrite as one sentence using:would.....if.....)

.....
.....

37. The guests liked fruit juice more than soda.

(Re-write the sentence using.....prefer.....)

.....
.....

38. Dad will buy some juice if we remind him.

(Rewrite as one sentence beginning: Would Daddy.....?)

.....
.....

39. Please send me an invitation letter said peter.

(Rewrite and punctuate the sentence correctly)

.....
.....

40. It was not necessary for the cyclist to ride on the pavement.

(Rewrite the sentence using:needn't.....)

.....
.....

41. James' cousin is one of the best civil engineers.

(Rewrite the sentence beginning: A cousin of.....)

.....
.....

42. This tailor is very humble. Very few people trust him.

(Rewrite the sentence using:despite his)

.....
.....

43. Katrina has written an apology letter.

(Rewrite the sentence beginning: An apology letter.....)

.....
.....

44. Davis is a very educated person. He cannot marry an illiterate.

(Rewrite the sentence using:such...that....)

.....
.....

45. "Was the teacher here yesterday?" Nyamutoro asked.

.....
.....

46. Swamps need protection.

(Rewrite the sentence beginning: What.....)

.....
.....

47. We shall take back those books to the librarian in the morning.

(Rewrite as one sentence using:.....return.....)

.....
.....

48. No sooner had the lesson begun than it started raining. (Join as one sentence beginning: Immediately.....)

.....
.....

49. In addition to being lousy, Ritah is absent minded

(Join as one sentence beginning: Besides.....)

.....
.....

50. A rolling stone..... (Rewrite and complete the proverb correctly)

.....
.....

6

SECTION B: 50MARKS
(Questions 51 to 55 carry ten marks each)

51. Read the passage below and then answer in full sentences the questions that follow.

One day, my father talked on his phone for a long time. His airtime got used up before he could end his talk. He was conversing with his workmate Mr. Obadiya. He returned within ten minutes with airtime. When I reached home, I found my father busy listening to the news on radio. He was so attentive that he didn't want any disturbance.

He therefore, gave me the mobile phone to load the airtime for him and scratched it. Since I did not know what to do after scratching, I opened then phone. Then I took it to my father thinking I had done the right thing. My father immediately tried to call his friend. He dialed repeatedly but the call could not go through. "Have you loaded the airtime?" he asked me. I responded happily that I had loaded it. As he removed the battery, the airtime card dropped on the floor. "Oh my son! You didn't know how to load airtime!" he laughed.

I was disappointed that I did not load airtime for my father. He realized that I was sad. He held me in his arms and said, "Don't worry my son. Let's do it together." Then he loaded as I was watching. I was very happy to learn how to load airtime.

Questions

a) What happened to the airtime of the writer's father?

.....
.....

b) To whom was the writer's father talking?

.....
.....

c) Why did the writer go to the shop?

.....
.....

d) How did the writer travel to the shop?

.....
.....

e) When the writer brought airtime, what was his father doing?

.....
.....

f) Why was the writer excited?

.....
.....

g) Where did the writer place the airtime card?

.....
.....

h) Give another word or group of words with the same meaning as each of the underlined words in the passage.

conversing.....

responded.....

i) Give a suitable title for the story.

.....
.....

52. This letter of appointment was given to one of the invigilators who was posted to one of the examination centres in Mukono in 2023. Read it and answer the questions that follow.

UGANDA NATIONAL EXAMINATIONS BOARD

PLE INVIGILATION 2023

Re: APPOINTMENT LETTER

Mr. Emolu Simon Peter of Butambala Junior School has been appointed as an invigilator and posted to Bright Future Primary School. The Head teacher is requested too receive him and give the required assistance for the successful conduct of PLE at the examination Centre.

His duty is to watch over the candidates, to prevent cheating of exams and drawing seating plans in the rooms allocated to him by the supervisor. He will have to present his national identity card and this appointment on his arrival. He has been paid for his work. Any payment given to him will be regarded as a bribe.

EXECUTIVE SECRETARY

Questions

- a) What name is given to the above information?

.....
.....

- b) To which school was the owner of the letter posted?

.....
.....

c) Which examination was he going to invigilate?

.....
.....

d) Why do you think he had to carry his national identity card?

.....
.....

e) For which year was this examination?

.....
.....

f) What was the head teacher warned against?

.....
.....

g) Who appointed him to carry out this exercise?

.....
.....

h) Mention one role this invigilator will play while at this centre?

.....
.....

i) In which school does Mr Emolu teach?

.....
.....

j) Give a word to mean the same as the underlined words in the letter

.....
.....

53. Read this poem below carefully and the answer questions that following full sentences.

We need a **peaceful** community

Where parents and children

Live together in happiness

Free of abuses and fights

Parents listening to children

Correcting **mistakes** with love

Punishing where necessary

And providing basic needs

A community with **important** people

The religious helping to pray

The elderly guiding and counseling

And teaching the young polite words

Come and listen, fellow children

Pay attention to your teachers

Help those in need

And we shall be **winners**.

Samuel Kasumba

Questions

- a) What is the speaker's need?

.....
.....

b) Who do you think is speaking in this poem?

.....
.....

c) When should punishments be given?

.....
.....

d) What should not be done in the community?

.....
.....

e) Who provides basic needs?

.....
.....

f) According to the poem, what do the religious do?

.....
.....

g) Who should learn polite words?

.....
.....

h) How can one be a winner?

.....
.....

i) By whom was this poem written?

.....
.....

j) Give a word to mean the same as winners as used in the poem.

.....
.....
