KOLFRAM EDUCATIONAL SERVICES KAMPALA

P.7 SCIENCE PRE NATIONAL- MOCK SET VIII MARKING GUIDE

Section A

- 1. The skin/liver/lungs/kidneys
- 2. Bats
- 3. Biological change causes increase in size while chemical changes cause changes in size/Biological changes occur in living organisms wile chemical change occurs in both living and non living things.
- 4. Bananas get shade from coffee trees/get manure when the fallen leaves of coffee rot/Bananas control soil erosion by scattering rain drops.
- 5. Training
- 6. Wedges
- 7. To hold and protect injured body part from further injuries
- 8. Has a root nodule on its roots.
- 9. Heat source, fuel, oxygen
- 10. Geckos eat mosquitoes that hide in the house.
- 11. Cancer/Asthma/accept any deficiency disease/eye defects.
- 12. He should buy new tyres/pour marram on the road.
- 13. Tendons.
- 14. Both help in breathing/gaseous exchange.
- 15. They have no chlorophyll/feed saprophytically/do not make their own food. Reject: Reproduce by means of spores because of yeast.
- 16. To allow free circulation of air in the house/allow gaseous exchange in the house/allow light into the house.
- 17. For easy swallowing/to start the process of starch digestion.
- 18. Source of food/control pests like rats and mice/source of snake venom for making anti venom.
- 19. To prevent further injury/to immobilize the injured part/to reduce weight on the injured limb.
- 20. For growing crops/construction/making bricks/blocks/making local herbs.
- 21. Circulatory system.
- 22. May lead to short circuits/may lead to fire outbreaks.
- 23. Deamination of fats/detoxicates the body/produces bile.
- 24. Cows, goats, sheep, leopard, crocodiles
- 25. Germs/pathogens/bacteria

- 26. Washing hands/utensils/cooking from clean place/Sweeping the compound/proper disposal of waste/digging pit latrines/rubbish pits.
- 27. Prevents overdose/under dose/drug poisoning.
- 28. Prevents the breeding of jiggers/seals cracks/qets rid of dust.
- Lubricates the eyes/prevents eyeballs fron drying/prevents friction in the eyes.
- 30. Chemical electricity.
- 31. Swollen pot belly/curly brown hair/dry scale skin/swollen joints, emaciated muscles.
- Helps youth guard against AIDS/sensitizes the youth on AIDS.
- 33. Condensation.
- 34. Protection from thieves/guards the home/used for hunting/as pets/controls rats.
- 35. Heats water bodies to cause evaporation/results in evaporation.
- 36. Natural gas/uranium/peat/diesel/kerosene
- *37*.
- 38. Vacuum has no medium of sound transfer/No molecules of matter for heat transfer.
- Diarrhea can be controlled by maintaining proper personal hygiene but controlling mosquitoes and mosquito bites is difficult.
- 40. Bilharzias flukes/Hookworms.

Section B

- 41.
- (a) Permanent teeth
- (b) incisors
- (c) teeth A tear, crush and grind foof into smaller pieces
- (d) It has broad flat top adapted for gringing.
- 42. -
- (a) Heart/brain/intestines/ears/eyes/nose.
- (b) Eczema/scabies/measles/skin cancer/ring worms.

_[(c)	R	athing regularly/Eating balanced	(d)	Sn	eed of wind.	
-	(८)		iet/applying body lotion that keeps it	50.	- Spi	eed of willa.	
			oft/Avoid piercing, tattooing or	(a)	– Soli	d, liquid, gas	
			leaching it.	(b)		affin, rat poison, medicines,	
	43		-	(6)		ticides, herbicides, alcohol, sedative.	
	43.	(a)	Increase crop yields/prevent crop	(c)	-	soning is death/ injury caused by	
		(4)	diseases/pests/to maintain soil	(0)		allowing, inhaling, touching or	
-			fertility.			ecting various drugs in the body while	
		(b)	Mulching/adding		-	oison is any substance that is harmf	
		(2)	manure/fertilizers/bush		-	he body.	
			fallowing/agro-forestry/mixed	51.	_	ne body.	
			farming.	32.	(a)	Farm budget is the estimation of	
	44.	_	, 		(-)	the income and the expenditure of	
-		(a)	Mushroom/Toadstool/ a fungus			the farm.	
		(b)	To produce and store the spores.		(b)	Income, expenditure	H
		(c)	By means of spores/Spore		(c)	High taxation, poor planning,	
		(-)	formation		(- /	failure to know losses/ profits	
		(d)	Mycelline/hyphae.			made.	
_	45.	_	,, , , ,	52.	_		
		(a)	Blood pressure is the circulating		Myopi	a (short-sight)/long sight	
		• •	blood against the walls of blood			metropia)/catarracts/ night blindne	25
			vessels.			eyeball/thick eye lens/long	
		(b)	Red blood cells/white blood		eyebal	ll/thin eye lens/lack of vitamin A in t	h
			cells/platelets/		-	ough cornea.	
		(c)	Transport hormones/waste		Wearii	ng glass with concave lens/converse	
			materials/heat/oxygen/helps in		lens/cy	lindrical lens/eating food rich in	
			clotting on wounds/defends the		vitami	n A.	
						/	
			body against germs.		Tracho	oma/conjunctivitis	
	46.	_	body against germs.	53.	Tracho	oma/conjunctivitis	
	46.	– (a)	Has few component parts/does not	53.	(a)	Condoms (Reject: Use of condoms	s,
	46.		Has few component parts/does not need much skill to use.	53.		Condoms (Reject: Use of condoms Human immuno deficiency	S
	46.	- (a) (b)	Has few component parts/does not need much skill to use. Increasing the number of pulleys in	53.	(a) (b)	Condoms (Reject: Use of condoms Human immuno deficiency virus/HIV	S
	46.		Has few component parts/does not need much skill to use. Increasing the number of pulleys in the block/oiling the movable parts.	53.	(a)	Condoms (Reject: Use of condoms Human immuno deficiency virus/HIV Long distance truck	
	46.	(b)	Has few component parts/does not need much skill to use. Increasing the number of pulleys in the block/oiling the movable parts.	53.	(a) (b)	Condoms (Reject: Use of condoms Human immuno deficiency virus/HIV Long distance truck drives/soldiers/policemen/sex	
	46.		Has few component parts/does not need much skill to use. Increasing the number of pulleys in		(a) (b)	Condoms (Reject: Use of condoms Human immuno deficiency virus/HIV Long distance truck	
	46. 47.	(b)	Has few component parts/does not need much skill to use. Increasing the number of pulleys in the block/oiling the movable parts.	53. 54.	(a) (b) (c)	Condoms (Reject: Use of condoms Human immuno deficiency virus/HIV Long distance truck drives/soldiers/policemen/sex workers/business men.	
		(b) (c) - (a)	Has few component parts/does not need much skill to use. Increasing the number of pulleys in the block/oiling the movable parts. $E = \frac{L}{MA} / E = \frac{100 kg}{2} / 50 kgf$ By vibration of air in the column.		(a) (b) (c) - (a)	Condoms (Reject: Use of condoms Human immuno deficiency virus/HIV Long distance truck drives/soldiers/policemen/sex workers/business men.	
		(b) (c) –	Has few component parts/does not need much skill to use. Increasing the number of pulleys in the block/oiling the movable parts. $E = \frac{L}{MA} / E = \frac{100 kg}{2} / 50 kgf$ By vibration of air in the column. Closing some of the holes when		(a) (b) (c) - (a) (b)	Condoms (Reject: Use of condoms Human immuno deficiency virus/HIV Long distance truck drives/soldiers/policemen/sex workers/business men. Induction method. South pole	
		(b) (c) - (a) (b)	Has few component parts/does not need much skill to use. Increasing the number of pulleys in the block/oiling the movable parts. $E = \frac{L}{MA} / E = \frac{100 kg}{2} / 50 kgf$ By vibration of air in the column. Closing some of the holes when blowing the instrument. South pole Repeated dropping/strong	
		(b) (c) - (a) (b) (c)	Has few component parts/does not need much skill to use. Increasing the number of pulleys in the block/oiling the movable parts. $E = \frac{L}{MA} / E = \frac{100 kg}{2} / 50 kgf$ By vibration of air in the column. Closing some of the holes when blowing the instrument. Wind instruments		(a) (b) (c) - (a) (b)	Condoms (Reject: Use of condoms Human immuno deficiency virus/HIV Long distance truck drives/soldiers/policemen/sex workers/business men. Induction method. South pole Repeated dropping/strong heating/making it rust/poor	
		(b) (c) - (a) (b)	Has few component parts/does not need much skill to use. Increasing the number of pulleys in the block/oiling the movable parts. $E = \frac{L}{MA} / E = \frac{100 kg}{2} / 50 kgf$ By vibration of air in the column. Closing some of the holes when blowing the instrument. Wind instruments Trumpet/whistle/horn/tromboneb	54.	(a) (b) (c) - (a) (b)	Condoms (Reject: Use of condoms Human immuno deficiency virus/HIV Long distance truck drives/soldiers/policemen/sex workers/business men. Induction method. South pole Repeated dropping/strong	
	47.	(b) (c) - (a) (b) (c)	Has few component parts/does not need much skill to use. Increasing the number of pulleys in the block/oiling the movable parts. $E = \frac{L}{MA} / E = \frac{100 kg}{2} / 50 kgf$ By vibration of air in the column. Closing some of the holes when blowing the instrument. Wind instruments		(a) (b) (c) - (a) (b) (c)	Condoms (Reject: Use of condoms Human immuno deficiency virus/HIV Long distance truck drives/soldiers/policemen/sex workers/business men. Induction method. South pole Repeated dropping/strong heating/making it rust/poor storage/repeated hammering.	
		(b) (c) (a) (b) (c) (d)	Has few component parts/does not need much skill to use. Increasing the number of pulleys in the block/oiling the movable parts. $E = \frac{L}{MA} / E = \frac{100 kg}{2} / 50 kgf$ By vibration of air in the column. Closing some of the holes when blowing the instrument. Wind instruments Trumpet/whistle/horn/tromboneb anjo/flute/read pipe.	54.	(a) (b) (c) - (a) (b) (c)	Condoms (Reject: Use of condoms Human immuno deficiency virus/HIV Long distance truck drives/soldiers/policemen/sex workers/business men. Induction method. South pole Repeated dropping/strong heating/making it rust/poor storage/repeated hammering. (i) wheelbarrow (ii) Shovel	
	47.	(b) (c) - (a) (b) (c) (d) - (a)	Has few component parts/does not need much skill to use. Increasing the number of pulleys in the block/oiling the movable parts. $E = \frac{L}{MA} / E = \frac{100 kg}{2} / 50 kgf$ By vibration of air in the column. Closing some of the holes when blowing the instrument. Wind instruments Trumpet/whistle/horn/tromboneb anjo/flute/read pipe. Alveoli/air sacks	54.	(a) (b) (c) - (a) (b) (c)	Condoms (Reject: Use of condoms Human immuno deficiency virus/HIV Long distance truck drives/soldiers/policemen/sex workers/business men. Induction method. South pole Repeated dropping/strong heating/making it rust/poor storage/repeated hammering. (i) wheelbarrow (ii) Shovel For watering crops	
	47.	(b) (c) - (a) (b) (c) (d) - (a) (b)	Has few component parts/does not need much skill to use. Increasing the number of pulleys in the block/oiling the movable parts. $E = \frac{L}{MA} / E = \frac{100 kg}{2} / 50 kgf$ By vibration of air in the column. Closing some of the holes when blowing the instrument. Wind instruments Trumpet/whistle/horn/tromboneb anjo/flute/read pipe. Alveoli/air sacks To keep it open all the time/prevent it	54.	(a) (b) (c) - (a) (b) (c)	Condoms (Reject: Use of condoms Human immuno deficiency virus/HIV Long distance truck drives/soldiers/policemen/sex workers/business men. Induction method. South pole Repeated dropping/strong heating/making it rust/poor storage/repeated hammering. (i) wheelbarrow (ii) Shovel	
	47.	(b) (c) (a) (b) (c) (d) (a) (b)	Has few component parts/does not need much skill to use. Increasing the number of pulleys in the block/oiling the movable parts. $E = \frac{L}{MA} / E = \frac{100 kg}{2} / 50 kgf$ By vibration of air in the column. Closing some of the holes when blowing the instrument. Wind instruments Trumpet/whistle/horn/tromboneb anjo/flute/read pipe. Alveoli/air sacks To keep it open all the time/prevent it from collapsing or closing.	54.	(a) (b) (c) - (a) (b) (c)	Condoms (Reject: Use of condoms Human immuno deficiency virus/HIV Long distance truck drives/soldiers/policemen/sex workers/business men. Induction method. South pole Repeated dropping/strong heating/making it rust/poor storage/repeated hammering. (i) wheelbarrow (ii) Shovel For watering crops	
	47.	(b) (c) - (a) (b) (c) (d) - (a) (b) (c)	Has few component parts/does not need much skill to use. Increasing the number of pulleys in the block/oiling the movable parts. $E = \frac{L}{MA} / E = \frac{100 kg}{2} / 50 kgf$ By vibration of air in the column. Closing some of the holes when blowing the instrument. Wind instruments Trumpet/whistle/horn/tromboneb anjo/flute/read pipe. Alveoli/air sacks To keep it open all the time/prevent it from collapsing or closing. The trachea is closed by the epiglottis.	54.	(a) (b) (c) - (a) (b) (c)	Condoms (Reject: Use of condoms Human immuno deficiency virus/HIV Long distance truck drives/soldiers/policemen/sex workers/business men. Induction method. South pole Repeated dropping/strong heating/making it rust/poor storage/repeated hammering. (i) wheelbarrow (ii) Shovel For watering crops	
	47.	(b) (c) - (a) (b) (c) (d) - (a) (b)	Has few component parts/does not need much skill to use. Increasing the number of pulleys in the block/oiling the movable parts. $E = \frac{L}{MA} / E = \frac{100 kg}{2} / 50 kgf$ By vibration of air in the column. Closing some of the holes when blowing the instrument. Wind instruments Trumpet/whistle/horn/tromboneb anjo/flute/read pipe. Alveoli/air sacks To keep it open all the time/prevent it from collapsing or closing. The trachea is closed by the epiglottis. It is warm/moist/has more	54.	(a) (b) (c) - (a) (b) (c)	Condoms (Reject: Use of condoms Human immuno deficiency virus/HIV Long distance truck drives/soldiers/policemen/sex workers/business men. Induction method. South pole Repeated dropping/strong heating/making it rust/poor storage/repeated hammering. (i) wheelbarrow (ii) Shovel For watering crops	
	47. 48.	(b) (c) - (a) (b) (c) (d) - (a) (b)	Has few component parts/does not need much skill to use. Increasing the number of pulleys in the block/oiling the movable parts. $E = \frac{L}{MA} / E = \frac{100 kg}{2} / 50 kgf$ By vibration of air in the column. Closing some of the holes when blowing the instrument. Wind instruments Trumpet/whistle/horn/tromboneb anjo/flute/read pipe. Alveoli/air sacks To keep it open all the time/prevent it from collapsing or closing. The trachea is closed by the epiglottis.	54.	(a) (b) (c) - (a) (b) (c)	Condoms (Reject: Use of condoms Human immuno deficiency virus/HIV Long distance truck drives/soldiers/policemen/sex workers/business men. Induction method. South pole Repeated dropping/strong heating/making it rust/poor storage/repeated hammering. (i) wheelbarrow (ii) Shovel For watering crops	
	<i>47. 48.</i>	(b) (c) (a) (b) (c) (d) (b) (c) (d) (c) (d)	Has few component parts/does not need much skill to use. Increasing the number of pulleys in the block/oiling the movable parts. $E = \frac{L}{MA} / E = \frac{100 kg}{2} / 50 kgf$ By vibration of air in the column. Closing some of the holes when blowing the instrument. Wind instruments Trumpet/whistle/horn/tromboneb anjo/flute/read pipe. Alveoli/air sacks To keep it open all the time/prevent it from collapsing or closing. The trachea is closed by the epiglottis. It is warm/moist/has more carbondioxide than oxygen.	54.	(a) (b) (c) - (a) (b) (c)	Condoms (Reject: Use of condoms Human immuno deficiency virus/HIV Long distance truck drives/soldiers/policemen/sex workers/business men. Induction method. South pole Repeated dropping/strong heating/making it rust/poor storage/repeated hammering. (i) wheelbarrow (ii) Shovel For watering crops	
	47. 48. 49. (a)	(b) (c) - (a) (b) (c) (d) - (a) (b)	Has few component parts/does not need much skill to use. Increasing the number of pulleys in the block/oiling the movable parts. $E = \frac{L}{MA} / E = \frac{100 kg}{2} / 50 kgf$ By vibration of air in the column. Closing some of the holes when blowing the instrument. Wind instruments Trumpet/whistle/horn/tromboneb anjo/flute/read pipe. Alveoli/air sacks To keep it open all the time/prevent it from collapsing or closing. The trachea is closed by the epiglottis. It is warm/moist/has more carbondioxide than oxygen.	54.	(a) (b) (c) - (a) (b) (c)	Condoms (Reject: Use of condoms Human immuno deficiency virus/HIV Long distance truck drives/soldiers/policemen/sex workers/business men. Induction method. South pole Repeated dropping/strong heating/making it rust/poor storage/repeated hammering. (i) wheelbarrow (ii) Shovel For watering crops	
	<i>47. 48.</i>	(b) (c) (a) (b) (c) (d) (c) (d) (c) (d)	Has few component parts/does not need much skill to use. Increasing the number of pulleys in the block/oiling the movable parts. $E = \frac{L}{MA} / E = \frac{100 kg}{2} / 50 kgf$ By vibration of air in the column. Closing some of the holes when blowing the instrument. Wind instruments Trumpet/whistle/horn/tromboneb anjo/flute/read pipe. Alveoli/air sacks To keep it open all the time/prevent it from collapsing or closing. The trachea is closed by the epiglottis. It is warm/moist/has more carbondioxide than oxygen.	54.	(a) (b) (c) - (a) (b) (c)	Condoms (Reject: Use of condoms Human immuno deficiency virus/HIV Long distance truck drives/soldiers/policemen/sex workers/business men. Induction method. South pole Repeated dropping/strong heating/making it rust/poor storage/repeated hammering. (i) wheelbarrow (ii) Shovel For watering crops	
	47. 48. 49. (a)	(b) (c) (a) (b) (c) (d) (c) (d) (c) (d)	Has few component parts/does not need much skill to use.
