# MARKING SCHEME THE BIBLE 112/1 ENGLISH LANGUAGE (AMENDED)

#### INTRODUCTION

All examiners should note that:

- 1. It is essential that examiners, who, through illness or for some other reasons, find it impossible to continue marking in the first instance, inform their team Leaders or Chief Examiner.
- 2. The payment for marking is dependent on the correct number of scripts reported **to** have been marked by the individual examiner, the team, the Team Leader and Chief Examiner.
- 3. (a) When opening script envelopes be sure to count & number of scripts
  in the envelope and ensure that it corresponds with **the** number written **on the** outside **of** the envelope.
  - (b) In case of any discrepancy between the number of scripts enclosed and the number indicated on the envelope, report to Team Leader in charge of scripts or **to** the Chief Examiner.
- 4. Report any suspected dishonesty on the part of the candidate **to your** team Leader who will refer the matter **to** the **Chief Examiner**.
- 5. The Uganda National Examinations Board wishes to draw the attention of its examiners to the wide public interest which their work attracts, and to its desirability of reassuring the public that this important work is carried out with due responsibility and concentration. The board wishes also to emphasize the standing instruction to the examiners that all matters connected with the marking of scripts, including photocopied scripts, must be treated as CONFIDENTIAL. All confidential material must be returned to your Team Leader at the end of the marking session. No scripts should be removed from the rooms allocated for marking except with the permission of the C/E.
- 6. For any queries during the marking period, see your Team Leader

or Chief Examiner.

### 112/1 MARKING SCHEME

### I. THE MARKING SYSTEM

Examiners are to assess **by impression the linguistic ability,** and then make

adjustment, **if necessary**, for content and arrangement. The examination is designed for candidates whose native language is not English.

**The aim** is to use **the** full mark range 0-20

### II. GENERAL INSTRUCTIONS

### A. Co-ordination Procedure

- 1. The Question paper will be discussed together with the "points of interpretation."
- 2. After studying the marking Scheme, examiners will mark a set of selected photocopied scripts (dummy scripts) from section A on their own and hand in the marks to their Team **Leaders**.
- 3. The dummy scripts marked by **the** examiners will be analysed.
- 4. Points of interpretation and relevance will be discussed.
- 5. Selected dummy scripts of section B will **be** marked by examiners and handed in to their Team Leaders.
- 6. More dummy script of Section A and B may be marked and discussed when need arises.
- 7. Queries and problems will he dealt with.
- 8. Further information on the marking procedure will be given.

## B. Co-ordination Procedure (Continued)

- (a) From the marked packets, Team Leaders will select approximately 10% of the scripts for co-ordination. The scripts selected will be from a range of marks (wherever possible).
  - (b) If there are several deviations of more than 2 points, a further 10% will be Coordinated and the packet may be returned for re-marking.
- 2. Starters should ensure that they open one envelope at a time.

  After marking, ensure that all scripts for that envelope have been returned.
- 3. Keep a clear record of all scripts marked (Centre name and number, number of scripts marked, scripts missing, etc....)
- 4. If you are uncertain about any script, consult your Team Leader.

### III. THE MARKING SCHEME

#### A. General Procedure

- Use a red pen- Underline all mistakes (except in 'D' scripts see paragraph. 12).
   Mark lightly. Do not delete or correct an error. If the candidate had added pencil corrections, please annotate this in the margin. Team Leaders are to mark their own scripts in red.
  - TLs, A/CEs and the CE coordinate with Green pens. All marks by Examiners must be written in Red ink.
- 2. The mark, maximum 40, should be placed at the top right-hand

comer of the first page. Show marks for both questions. Question one first and then the total, e.g. 09 + 08 = 17. Then transfer the final mark on the mark grid on the answer booklet.

- (v) MARKING NORMAL SCRIPTS
- (a) Decide on linguistic grounds the CLASS A-D
- (b) After underlining, decide the mark category (A +, A -, etc.)

With specific reference to:

- ii. Variety of correct structures;
- iii. Ability to link construction, sentences and paragraphs coherently and fluently.
- (c) Adjust for content and arrangement, if necessary.
- (d) Allocate numerical mark.

ACTION: Award 00; write 'irrelevant' in front of made on script; with your comments send to CE via TL.

(b) MINOR IRRELEVANCY i.e. interpretation not fully acceptable

ACTION: Deduct 1 mark from the score.

(c) DISJOINTED SCRIPTS i.e. lacking shape or unity, containing long semirelevant digression. For example, paragraphing, use of subtitles or different ideas.

  - (d) Send all such scripts to your TL. Great care must be taken in assessing 'D' scripts.

**Do not raise a 'D' script on content and arrangement,** but be quite sure of its weak linguistic quality before using the above procedure.
